A Focus on Sustainability

As a leading manufacturer of disposable party supplies, it is important for us to consider the environmental impact of our products. *Simply put—it's important to your customers, so it's important to us.*

It's an evolution, but some of the ways we're making progress include:

- Printed paper napkins & tablecovers made with recycled material
- Most U.S.-made paper plates are 100% plastic-free
- Broad selection of new wood cutlery and paper straws as alternatives to plastic
- Development of more sustainable packaging options including recyclable materials and reduced plastic
- SFI Certified Sourcing for materials that you can trust come from responsibly harvested forests
