## Hooklift/Cable Hoist/Container Carrier Inspection Log

This log is for recording daily, monthly, quarterly, and annual inspections. Each inspection should be marked with a “check” for passing or an “x” for failure requiring a corrective action. At the end of this log, you will find a series of pages intended to document all the items that required corrective action. Note: Please refer to the corresponding Owner’s Manuals for additional information regarding the service of this equipment.

**Equipment Serial:**

## Demountable Product Inspection Log

Daily and monthly inspections are to be performed by a “designated” person, who has been selected by the employer or the employer’s representative as being competent to perform specific duties.

Quarterly and annual inspections are to be performed by a “qualified” person who, by possession of a recognized degree in an applicable field or certificate of professional standing, or who, by extensive knowledge, training and experience has successfully demonstrated the ability to solve or resolve problems related to the subject matter and work.

Consult the corresponding Owner’s Manual for additional inspection items.

**Daily:** Before each day of operation, those items on the Daily Inspection sheet must be inspected and recorded.

**Monthly:** Monthly inspections or 100 hours of normal operation (which ever comes first) includes all daily and monthly inspection items plus items designated on the Monthly Inspection sheet. This inspection must be recorded.

**Quarterly:** Every three months or 300 hours of normal operation (which ever comes first) includes all daily and monthly inspection items plus items designated on the Quarterly Inspection sheet. This inspection must be recorded.

**Annual:** Each year or 1200 hours of normal operation (which ever comes first) includes all items on this form which encompasses daily, monthly, and quarterly inspections plus those items designated on the Annual Inspection sheet. This inspection must be recorded.

**Month:** \_\_\_\_\_ **Year:** \_\_\_\_\_

## Monthly Demount Inspection

Month: \_\_\_\_\_ Year: \_\_\_\_\_

☒ Pass

☐ Fail

Demount	Pass/Fail
All daily inspections	
Visual inspection of cylinders for leakage at rod, fittings & welds. Damage to rod and case	
Holding valves for proper operation	
Control valve for leaks at fittings and between sections	
Control valve linkages for wear, smoothness of operation and tightness of fasteners. Relief valve for proper pressure settings	
Bent, broken or significantly rusted/corroded parts	
Electrical systems for presence of dirt, moisture & frayed wires	
All structural members for damage	
All welds for breaks & cracks	
All pins for proper installation & condition	
All bolts, fasteners & retaining rings for tightness, wear & corrosion	
Hydraulic pumps & motors for leakage at fittings, seals & between sections. Check tightness of mounting bolts	
Transmission/PTO for leakage, abnormal vibration & noise, alignment & mounting bolt torque	

Demount	Pass/Fail
Hoses & tubes for leakage, abrasion damage, blistering, cracking, deterioration, fitting leakage & secured properly	
Load hook for abnormal throat distance, twist, wear & cracks (Hooklift Only)	
Presence of operator's manuals with the unit	
Tire wear and air pressure	
Working backup alarm	
Fire extinguisher at cab or machinery housing	
Grease all pivot points	
Condition of wear pads (Slider Hooklift Only)	
Jib assembly for excessive side-to-side play or chattering (Slider Hooklift Only)	
Lubricate extension booms (Slider Hooklift Only)	
Grease rotation gear open gear teeth (Container Carrier Only)	
Sheaves for groove condition (Cable Hoist Only)	

**Month:** \_\_\_\_\_ **Year:** \_\_\_\_\_
