## Financial Claims Scheme

The Australian Government has a Financial Claims Scheme (FCS), currently administered by APRA. This aims to protect deposits held in banks, credit unions, and building societies, in the event that such a locally incorporated authorised deposit taking institution (ADI) fails and the FCS is activated. The FCS currently provides protection to certain deposits in ADIs up to \$250,000 AUD per account holder. For more information, including a list of ADIs covered by the FCS, please visit [www.fcs.gov.au](http://www.fcs.gov.au)

## Things you should know

Minimum opening deposit of \$500

The interest rates shown are for an amount of \$500 to \$1,000,000. To obtain an interest rate for an amount of \$1,000,000 or more, please call **132 888** between 8am and 8pm (AEST) Monday to Friday, 9:00am to 2:00pm Saturday or visit your nearest [Bank Australia branch](#).

Advertised term deposit rates are current at the time of publication but can be changed at any time. The current rate applies to all new fixed term deposits and to term deposit rollovers at maturity.

Written notification of maturity will be given prior to the maturity date. If no instructions are received the term deposit will be re-invested for the same term at the advertised interest rate at the date of maturity. The interest rate on the re-invested term deposit may be lower.

## Fixed term deposit early repayment warning

Any request for withdrawal of funds from the term deposit prior to its maturity will be subject to 31 days' notice. If regular access to funds is required, another account may be more suitable.

For term deposits with terms less than 2 years where interest is paid at maturity, approval of any request for either a full or part redemption of funds prior to the expiry of the agreed term is at the discretion of Bank Australia.

If a request for withdrawal of funds from the term deposit prior to its maturity is approved by Bank Australia an early release adjustment to the accrued interest will apply. The interest rate applicable to principal amounts withdrawn early will be adjusted by the percentage of the current term over the original agreed term. For example, if the term deposit is held for 80% of the original term, 80% of the accrued interest on the amount withdrawn will be paid upon early redemption.

Any funds not redeemed will remain in the account until final expiry of the agreed term and will attract the full rate of interest as originally specified. The minimum investment amount must be retained in the applicable term deposit.

Monthly income term deposit redemptions prior to the expiry of the agreed term will be approved with 31 days notice. During the notice period, no interest will be earned on the portion of the term deposit being withdrawn.

## Financial Claims Scheme

The Australian Government has a Financial Claims Scheme (FCS), currently administered by APRA. This aims to protect deposits held in banks, credit unions, and building societies, in the event that such a locally incorporated authorised deposit taking institution (ADI) fails and the FCS is activated.
