Written notification of maturity will be given prior to the maturity date. If no instructions are received the term deposit will be re-invested for the same term at the advertised interest rate at the date of maturity. The interest rate on the reinvested term deposit may be lower.
*New term deposits are not available for terms of 4, 5, 7, 13-17 and 19-23 months.

## Fixed term deposit early repayment warning

Any request for withdrawal of funds from the term deposit prior to its maturity will be subject to 31 days' notice. If regular access to funds is required, another account may be more suitable.

For term deposits with terms less than 2 years where interest is paid at maturity, approval of any request for either a full or part redemption of funds prior to the expiry of the agreed term is at the discretion of Bank Australia.

If a request for withdrawal of funds from the term deposit prior to its maturity is approved by Bank Australia an early release adjustment to the accrued interest will apply. The interest rate applicable to principal amounts withdrawn early will be adjusted by the percentage of the current term over the original agreed term. For example, if the term deposit is held for $80 \%$ of the original term, $80 \%$ of the accrued interest on the amount withdrawn will be paid upon early redemption.

Any funds not redeemed will remain in the account until final expiry of the agreed term and will attract the full rate of interest as originally specified. The minimum investment amount must be retained in the applicable term deposit.

Monthly income term deposit redemptions prior to the expiry of the agreed term will be approved with 31 days notice. During the notice period, no interest will be earned on the portion of the term deposit being withdrawn.
