THE
SERIES

The Gravely® brand is known for building the most rugged commercial lawn mowers that also happen to be the most comfortable. Professional landscapers know they can rely on our machines day-in and day-out. So when you choose to mow your lawn with a Gravely, you know you're mowing like a pro.

110 YEARS OF AMERICAN INGENUITY

From the beginning Ben Gravely made a commitment to building rugged, dependable machines. His craftsmanship and ingenuity were unmatched, which caused his reputation for tough and reliable products to quickly grow across the country. People became loyal to the Gravely® brand because they knew it was made to last. It's often said that our machines are overbuilt. But after a century of over delivering, we believe that's how you build brand loyalty, how you earn respect, and how you keep a family company on top for over a hundred years.

GRAVELY®

EST. 1916

We've never been the ones to settle. Much like you, it's not in our nature. Where other manufacturers stop, we press on. Better materials, more innovative designs, and intuitive features make our mowers the most sought after in the industry. For over a century, we've been setting expectations pretty high. What a coincidence — that's about the same time we started to exceed them.

PRODUCT SPECIFICATIONS

Your Gravely® is built not only to leave a perfectly manicured lawn, but also to be both durable and reliable. They go through rigorous testing, mowing on extremely unfriendly and uneven terrain. They cut through thick, unforgiving grasses, even the heavy wet stuff, for hours at a time. After all, the Gravely name is on each of our machines, and we don't take that lightly.
