Putnam™ 8 or 16
Charging Station with USB-C PD

Designed to charge, store and secure 8 or 16 iPad®, iPad Pro®, Chromebook, tablet and other USB-C devices.

# Improves Workflow Efficiency From Top to Bottom.

Pre-wired with Integrated USB-C Cables
One station fits iPad®, iPad Pro®, tablet and Chromebook devices. Cables are secured to the side panel to reduce loss and theft.

Quickly Charge Devices
Never wait around for a charged device again. With PD charging, PD-compatible devices are quickly charged and ready to use.[1]

Know Charging Status at a Glance
In high-stakes, fast-paced environments, the external charging status indicators ensure employees and students are grabbing a fully-charged device. Plus, it's easy to see if devices have been returned and plugged in, even when the door is closed.

Fully-Assembled, No Setup
Right out of the box, this station is plug and play. Unbox it, plug it in, stock with devices, and you're all set. More working, less dinking around.

It just makes life easier.

Additional Time, Space and Money-Saving Features

Tiny footprint. The station takes up 342 x 407 mm of counter real estate, perfect for space-tight environments.

Built to last. Fully-welded steel construction will hold up to heavy use. Should a cable fray or break, quickly swap in a new one (sold separately).

Large slots, removable shelves. For taller devices, like handheld scanners and mobile printers, simply remove a shelf to double the slot height.[2]

Built-in, mechanical combination lock. Secure devices from theft, loss and data breaches by locking them up while not in use. The integrated combo lock eliminates the need for keys, so multiple people can easily access devices.

**Wall mountable.** Free up space with a wall-mounting kit (sold separately).

Over-temperature sensors. Each port contains protection circuitry which will turn off power to the port if it gets too hot.

Robust Warranty. Should any issues arise, our products are backed by a robust warranty and supported by a dedicated customer support team.[3]

World-class Customer Support. Our helpful and friendly Customer Support team will promptly assist with any product issues or questions.

Techs and Specs

COMPATIBILITY	Tablets, iPads, Chromebooks, phones, scanners[2], mobile printers[2]
CAPACITY	8 or 16 mobile devices
