

Revolution 32 Charging Cabinet™

Charge, store and secure up to 32 of almost any laptop or tablet device.

Specs: 1415mm (H) x 805mm (W) x 414mm (D) | 55kg

LocknCharge makes life easier.

High Device Capacity, Smaller Footprint.

For areas that are tight on space but need to charge, store and secure a greater amount of devices, the Revolution 32 Charging Cabinet is just the ticket. This tall, slim station takes up half the footprint of a traditional Charging Cart.

Under the Hood. Bricks and cables are hidden in two spacious compartments keeping them secure yet easy to access. Charging cables hang down in front of devices, allowing users to plug them in quickly and easily after each use. Because cords drop down from individual holes, they will never become tangled.

External Charging Status Display.

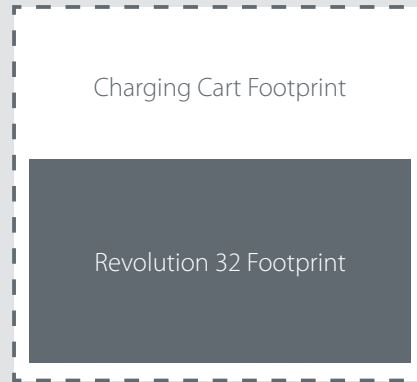

The remote controlled ECO Safe Charge™ Power Management System charges multiple laptops safely and efficiently. External lights allow you to easily see if your devices are charging.

Flexi Power System. Designed to accommodate a variety of devices on the market, these power strips slide on a track to make space for just about any type of device cords or power bricks.

A Smarter Use of Space

Small Footprint, Big Power. Tight on room? You no longer have to give up valuable space to accommodate a greater number of devices. The Revolution 32 Charging Cabinet packs as much charging power and capacity as a traditional Charging Cart, yet only takes up half the footprint.

Perfect for Several Device Environments. The Revolution 32 Charging Cabinet is a stationary cabinet perfect for device environments where devices always stay in the building or where devices need to be charged continuously throughout the day.

Additional Key Benefits

-  **Compatible & Efficient.**¹ Larger devices never have to feel left out. The Revolution 32 can accommodate devices up to 17", with or without cases.
-  **Safe Power Management.** Never blow a fuse again. ECO Safe Charge™ handles power requirements of almost any device by staging the availability of power.
-  **Eco Timer™.** Set the Eco Timer to turn off availability of power after a set amount of time. You'll see a reduction in energy consumption, carbon emissions and energy bills. Plus, devices will never be overcharged, increasing the longevity of their batteries.
-  **Numbered Slots.** For better device management, label each slot with a numbered sticker which is included with the Charging Station.
-  **Future-Proof.** Never worry about being stuck with an outdated Charging Cabinet. Removable racks allow this Cabinet to adapt to future needs as devices change or new technology is added.
-  **Secure.** Protect your device investment without worry. Lock away devices in the storage area with a combination padlock.
-  **Optional Baskets.** Replace the included device racks with Baskets by LocknCharge to make portability quick and easy for devices up to 13".
-  **Tough as Nails.** The Revolution 32 is made with high-quality steel that will withstand the test of time, and it's backed by a robust warranty.
