

CarryOn

Charging Station

Charge, store, secure and transport up to 5 iPad or Tablet devices.

PC Locs makes life easier.

Ultra Mobile, Ultra Portable. The CarryOn takes portability to the next level by being the most portable charging station on the market. Its compact design coupled with a built-in handle makes transporting and distributing devices easier than ever before.

Organised Cables. Minimise cord chaos by keeping those cables secure once and for all. It's virtually impossible to tangle the charging cables in the CarryOn Charging station. The cords are just the right length to reach each device.

Compatible and Efficient Charging. Universal design and 2.4 amps of power at each port makes the CarryOn small but mighty. Compatible with most iPad models, as well as other USB chargeable devices, you can simultaneously charge five at once.¹

Wall Mountable. The CarryOn is designed to adapt to your surroundings. It includes a handy wall mounting kit designed to transform any wall into a secure area for charging mobile devices while taking up only minimal space.

Ultra-Mobile, Ultra-Efficient

Save Time, Save Money.

The CarryOn enables users to quickly and easily locate fully-charged mobile devices at the beginning of every shift. Because of the simple cabling and short cords, they're also able to plug in devices very quickly, saving valuable time.

Small but Mighty.

At just two and a half kilograms, the CarryOn won't weigh you down. Its aluminium construction and built-in handle make it light, durable and ready for travel. Plus, the small footprint and wall mounting bracket keep desk or counter space free from clutter.

Additional Key Benefits

Lifetime Warranty. The CarryOn Charging Station is backed by a lifetime warranty.*

World-Class Customer Support. Our helpful and friendly Customer Support team will promptly assist with any product issues or questions that may arise.

Efficient and Compatible. An intelligent USB charger delivers 2.4 amps at each port for up to five 206-268 mm tablets (including USB power cable), with or without cases, up to 23.5 mm thick. That's Level VI Efficiency.¹

Efficient Setup and Cable Management. Efficiently set up your station while keeping cables organised during use. The rubber retention system firmly holds cables in place without causing damage.

Taking Portability to the Next Level. The CarryOn holds up to five devices, together with all the charging hardware and cables in one clean, compact unit.

Neat and Tidy. A cable at the back of the unit plugs into main power, then wraps around the cable cleat when you're on the move. The transparent door allows you to quickly check that all devices have been returned.

Small Footprint, Big Power. You don't have space to waste? That's why the CarryOn fits anywhere—mounted on the wall or tucked in a corner.

Functional Design. More than just a pretty face. Form meets function with this sleek and durable design, topped off with an aluminum handle for comfortable and easy carrying.

Secure. The CarryOn includes a keyed lock, aluminum outer shell and impact resistant alloy edging to keep devices safe, secure and protected.

CarryOn: 313 mm (L) x 183 mm (W) x 303 mm (H) | 2.5 kgs
