

Joey™ 30 & 40 Cart

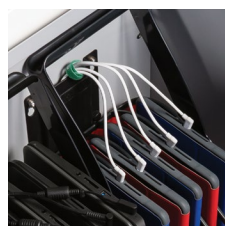

Charge, store, secure and transport up to 30 or 40 of nearly any device at a more affordable price.

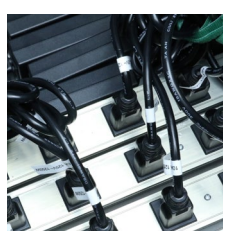

Save time and make life easier.

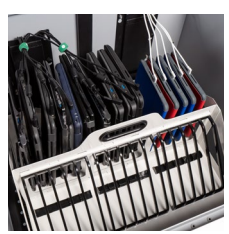

Save class time every day. Save 70 hours of class time per cart per year. Unlike front-loading carts, our unique top-loading carts provide visibility and accessibility to all devices at once – plus, our handy device baskets enable efficient handout and pack-up of devices every day.

Keep cables and bricks organized and secured. Cables are secured in channels on the inside walls of the cart to ensure organization and easy connection to devices. Power bricks are hidden from view, deterring a student from removing a charger without permission.

Easily setup your carts. All of the cabling is fully-accessible in the bottom of the cart, making them easier and faster to cable than traditional cabinet-style carts. Plus, you can purchase your carts pre-wired with USB-C cables to save even more time.

Enjoy future-proof benefits. Universal compatibility, open-concept design, and quality construction make it possible for your carts to adapt to ever-changing technology needs well into the future.

Additional Time, Space and Money-Saving Features

Easy to maneuver. High-quality, 360-degree rotating casters and a lightweight, compact chassis make it easy to push down hallways, in tight spaces, or through narrow doorways.

Power supplies accessibility.

Our “toolbox” device tray is easy to lift out so a staff member or IT person can remove or replace a cable in minutes.

ECO Smart Charge. Intelligent charging senses current draw and delivers power to each of the four power banks, allowing the maximum number of devices to charge at one time without tripping circuit breakers.

Ingenious door design. The doors fold flat to the sides of the cart, allowing access to devices from all sides while saving space when open.

Robust Warranty. Should any issues arise, our products are backed by a robust warranty and supported by a dedicated customer support team.³

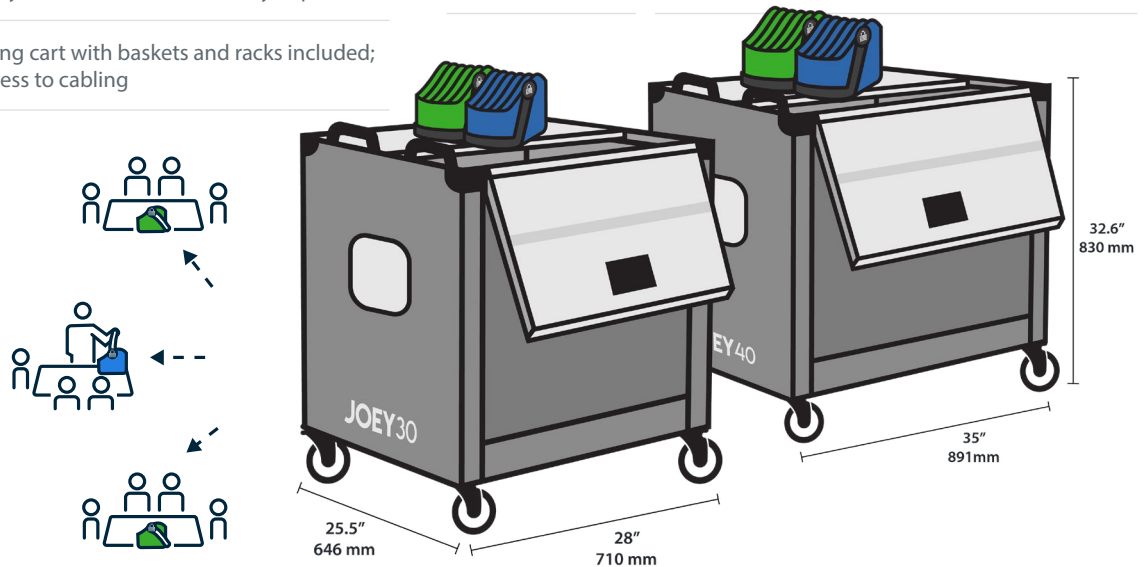

World-class Customer Support.

Our helpful and friendly Customer Support team will promptly assist with any product issues or questions.

Techs and Specs
