

Giga™ 40 Charging Cabinet

Charge, store, and secure up to 40 of almost any laptop or tablet device.

Specs: 55.7" (H) x 31.7" (W) x 16.5" (D) | 121.2 lbs

LocknCharge makes life easier.

High Capacity, Smaller Footprint.

For areas that are tight on space but need to charge, store and secure a greater amount of devices, the Giga 40 Charging Cabinet is just the ticket. This tall, slim station takes up half the footprint of a traditional charging cart.

Baskets by LocknCharge. These aren't just ordinary baskets. Slotted Device Baskets by LocknCharge make device deployments faster, safer, and more efficient. Each Basket can hold five tablet, laptop, or Chromebook devices.

External Charging Status Display.

The remote controlled ECO Safe Charge™ Power Management System charges multiple devices safely and efficiently. External lights allow you to easily see if your devices are charging.

Under the Hood. Bricks and cables are hidden in two spacious compartments keeping them secure yet easy to access. Charging cables hang down in front of devices, allowing users to plug them in quickly and easily after each use. Because cords drop down from individual holes, they will never become tangled.

A Smarter Use of Space

Small Footprint, Big Power. Tight on room? You no longer have to give up valuable space to accommodate a greater number of devices. The Giga 40 Charging Cabinet packs as much charging power and capacity as a traditional charging cart, yet only takes up half the footprint.

Perfect for Shared Use.

Not enough devices to go around? No problem. You can now easily share mobile devices between rooms without the fuss. Simply grab a Basket or two of devices and transport them safely and easily to just about anywhere you want to go.

Additional Key Benefits

Robust Warranty.

Should any issues arise, our products are backed by a robust warranty and supported by a dedicated customer support team.*

World-Class Customer Support.

Our helpful and friendly Customer Support team will promptly assist with any product issues or questions that may arise.

Timed Charging. Set the ECO Safe Charge to turn off availability of power after a set amount of time. You'll see a reduction in energy consumption, carbon emissions, and energy bills. Plus, devices will never be overcharged, increasing the longevity of their batteries.

Safe Power Management. Never blow a fuse again. ECO Safe Charge™ handles power requirements of almost any device by staging the availability of power.

Long-term affordability. You don't have to sacrifice quality for affordability. This mobile device charging station is built to last, which offers significant long-term cost savings.

Compatible & Efficient.¹ The Giga 40 can accommodate just about any device. The cabinet includes eight (8) Large Baskets for storing 40 devices up to 13" screen size, with or without cases.

Secure. Protect your device investment without worry. Lock away devices in the storage area with a combination padlock.
