

AAC Access Tracker

Let's make AAC use throughout the day fun and meaningful by introducing an easy-to-use AAC access tracker.

Encourage everyone in an AAC user's life, including family members, team members, and clinicians, to provide consistent access to communication across daily activities.

Together, we can ensure AAC is accessible in all environments. Use the chart provided to check off the hours when the device was present and modeled. This chart serves as a helpful reminder for staff, families, and clinicians to model AAC consistently throughout the day.

Let's Make Communication a Priority Throughout the Day!

Day					
Time	Device Modeled	Device Modeled	Device Modeled	Device Modeled	Device Modeled
8am					
9am					
10am					
11am					
12pm					
1pm					
2pm					
3pm					
4pm					
5pm					
6pm					
7pm
