Your Funding Journey

Hello! Our goal is to make this process as easy and stress-free as possible for you. You'll receive the device promptly through our ableExperience program, so you can decide if it's the right fit for your loved one's communication needs.

Please note that we still need to go through the funding process to obtain your insurance's approval to purchase the QuickTalker Freestyle. Our AbleNet team of experts will work quickly with your insurance to finalize their decision. If you decide the QuickTalker Freestyle is not the right fit, our team will work with you to return the device at no cost.

Here's How it Works:

Step 1:

- ☑ **You or your speech therapist completes the benefit check.**
- ☐ **You complete the parent/caregiver form.**
  - *If you submitted the benefit check - you've already completed this step!*
- ☐ **A QuickTalker Freestyle is shipped out for a hands-on experience.**

Step 2:

- ☐ **Your speech therapist will be emailed the insurance requirements that must be included in their speech evaluation to recommend keeping the device.**
  - *Insurance requirements vary, and our team will help ensure any needed documentation is in place.*
- ☐ **AbleNet contacts your doctor for the insurance required DME Order and documentation.**
  - *Some insurance companies may require a doctor's appointment within the last six months.*

Step 3:

- ☐ **AbleNet reviews your speech therapist's submitted evaluation to ensure all requirements are met; once confirmed, AbleNet submits all documents to your insurance company for their decision.**
- ☐ **If approved, AbleNet will convert the current QuickTalker Freestyle into your permanent device.**

AbleNet communicates via text messages to guide and update you along the way — look out for texts coming your way soon!
