

One Year. Life-Changing Results

Parents of children ages 1 to 5 shared what happened after their child received a QuickTalker Freestyle speech device – and the results speak for themselves.

Life Gets Calmer

59% saw less frustration and challenging behavior.

Communication Skyrockets

Parents report **BIG** increases in communication.

- ✓ 89% are making more requests
- ✓ 73% are expressing more feelings
- ✓ 71% are more often describing people, objects, and actions
- ✓ 69% are protesting more often when they don't want something
- ✓ 65% are asking and answering questions more often
- ✓ 64% saw an increase commenting on what's happening around them

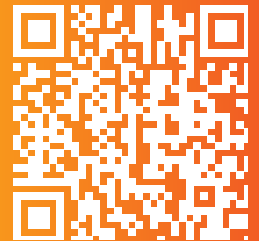

Language & Speech Grow

- ✓ 87% report a better understanding of language
- ✓ 84% report more verbal speech
- ✓ 79% report more words, phrases, and sentences being used with their device and verbally

Imagine Your Child Being Understood, Every Day, in Every Setting
