Organizational Success Starts with Personal Accountability

To succeed in today's competitive markets, every employee in your organization must be empowered, proactive, and committed to achieving results. Our **Self Leadership** course teaches individuals at all levels of your organization how to become empowered self leaders who accept responsibility and take the initiative for their own success.

The program builds on SLII®, the world's most widely taught leadership model, and integrates the latest research on the proactive skills required for individuals to be most effective. Participants learn a shared language for discussing their development and performance, allowing them to have more effective conversations and build more trusting, open relationships with their managers.

Self Leadership teaches your people—from individual contributors to senior leaders—the mindset and skillset needed to become proactive self-starters who know how to ask for direction and support, solicit feedback, and sell their ideas to the leadership team.

After completing this course, participants will be able to

- Support Personal and Professional Development
- Cultivate Personal Accountability
- Increase Autonomy and Performance
- Spark Innovation

Learning Journey Overview

- Understand how to use the SLII Model to get needs met
- Recognize and work through assumed constraints
- Marshal points of power
- Become more proactive and assertive
