

Education

MCA provides a comprehensive set of solutions engineered to help teachers and administrators communicate and protect students under their care

Voice, Data, and Video Communications for Educational Campuses

With all the demands of a school day, educators agree that nothing is more important than student safety. From integrated GPS that tracks school buses to video surveillance and two-way radios, we offer effective safety and security solutions to schools and educational institutions.

Whether you are a CIO for a large college or IT Director for a county school system, MCA has the solutions to help your institution connect without boundaries through added intelligence. Designed to ease the stress of a school day by opening clear lines of communication with visual support, our various radio, video surveillance, and vehicle tracking product and service selections are guaranteed to provide you with the right fit.

Purpose-Built Solutions for Education

MCA solutions for education are designed to withstand most any conditions and environment. Our mission-critical two-way radios, rugged laptops, best-in-class vehicle routers, private wireless networks, and more provide your school with what it needs to successfully improve safety, productivity, and security.

- Our two-way radios for school campuses give your team the best in cross-campus communications •
- With our mobile router and antenna kits, you can gain greater insight and control over your schools' transit fleet •
- MCA's video surveillance and access control systems protect your educational facilities and the students within •
 - Our toughbooks, rugged laptops, and handhelds keep you connected in any circumstance •

Professional Services

We offer engineering services, project managers, system managers, and FCC Licensing to provide you with a full service team for the successful design, deployment and life-cycle support of your project.

Installation Services

From radio site development, staging and testing, and system development to installing aftermarket and OEM equipment to fleet vehicles, MCA has a devoted certified technical staff to meet your needs.

Solution Support

Our team provides full-service maintenance, repair and managed solutions services. Our dedicated support staff can manage your custom solutions — allowing you more time to focus on your business.

Rental Services

Many of our products are available via customer-friendly short and long-term rental programs. Our easy-to-use and personalized rental service helps meet your evolving communications and technology requirements.

Radio Solutions

MotoTRBO Radios & Rentals

Connect instantly with faculty and administrators campus-wide with our extensive selection of MotoTRBO radios for on-site communications.

Motorola Wave Push-to-Talk

Connect teams at the push of a button across different networks and devices, including phone, tablets, computers, and two-way radios.

Wave PTX Dispatch Systems

CAD integrated with GIS and AVL can eliminate the headaches and hassle of routing and rerouting school buses, maintenance vehicles, and more.

Public Safety DAS

Ensure ERRCs communications work throughout your entire campus with PSR DAS solutions to ensure open lines for first responder communications.

Data Solutions

Cellular Distributed Antenna Systems (DAS)

Ensure your students, teachers, and connected pieces of equipment can reliably communicate on public cellular networks campus-wide.

Private Wireless (4G, 5G, & CBRS)

We'll build the infrastructure you need to transmit and receive private and secure voice, data, and video communications with Nokia's DAC solutions.

eLearning Connectivity

In-home CIPAA-compliant routers help bridge the digital divide by providing students and staff with Internet access in their homes.

Mass Notification Systems

We help school districts and educational institutions implement the latest in mass notification technologies, including panic and duress button activation.

Security Solutions

Video Surveillance

Protect staff and students with industry-leading smart video cameras that feature advanced AI search and analytics capabilities.

Detection Systems

Our detection systems monitor your physical facilities for break-ins, trespassers, access to restricted areas, concealed weapons, and more.

Access Control Systems

We install state-of-the-art access control systems with card readers, RFID scanners, and biometric capabilities to keep your campus safe.

Integrated Solutions

With solutions like Orchestrate, you can automate operations at speed and scale with an integrated platform connecting voice, data, video, and more.

Vehicle Solutions

Vehicle Area Networks

VANs enable the management of a large number of vehicles over a wide geographic area so with connectivity for navigation, GPS, automatic vehicle location, and more.

Vehicle Telematics & I/O Data

Ensure student and driver safety by monitoring equipment performance, vehicle health, driver behavior, and more in real-time.

School Bus Wi-Fi

Help close the digital divide by providing school bus riders with CIPAA-compliant internet access to complete assignments in and around each bus.

Vehicle Video Systems

Smart cameras and analytics systems provide safety, security, and a second set of eyes for monitoring behavior and counting passengers.
