- Education
- Fire & Rescue
- Emergency Services
- Entertainment
- Healthcare
- Hospitality
- Law Enforcement
- Logistics
- Public Safety
- Security Firms
- Utilities
- Recreation
- Retail
- Transportation
- Worship Centers

## Commercial Radios

Motorola's commercial radio series combines simple Push-to-Talk (PTT) functionality with unmatched ruggedness, voice clarity, and expanded coverage. Starting with analog radios ready to deploy out of the box to digital radios, we have you covered.

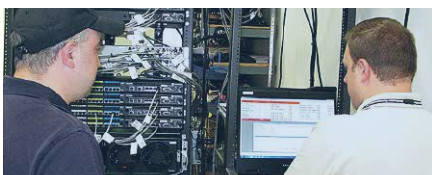

## MotoTRBO Radios

The Mototrbo portfolio features sophisticated two-way radios that enable voice, video, and data communication. With the best in Push-to-Talk functionality, Mototrbo two-way radios possess the increased capacity and enhanced features ideal for large deployments.

## Public Safety Radios

When lives are at risk, you need dependable radios that allow your public safety officers and first responders to work together without distraction. Motorola's APX series are the industry standard for the communication needs of public safety agencies.

## Radio Systems

When direct Push-to-Talk (PTT) communication is not enough, you need a complete radio system. At MCA, we design radio systems to meet your coverage and capacity needs. We have experience building and maintaining radio systems for large, multi-site campuses.

## Wave Wireless Network

WAVE is a cloud-managed Push-to-Talk (PTT) communication platform that connects work teams across devices and networks. For one low monthly cost, you can integrate your enterprise's phone, tablets, computers, and twoway radios across a single network.

## Radio Rental Services

To help manage your short-term and long-term radio needs MCA offers personalized rental services that help you scale your technology demands to match your business needs. Our easy-to-use radio rental program delivers straightforward ordering and returns.

## About MCA

**We are the trusted advisor for a safe, secure, and efficient workplace.** MCA offers a carefully researched portfolio of voice, data, and security solutions. As your trusted advisor, we reduce the time and effort needed to research, install, and maintain the right solutions to make your workplace better. When you choose MCA, you're also connecting to our Service-First DNA. With our Managed Technology-as-a-Service (MTaaS) offering, you'll never be surprised by hidden costs or fees. We offer a flat, budget-friendly recurring cost without additional finance charges. Our team of experts will manage your solution from start to finish, giving you the best return on your investment.

When combined with our SecurePlan™ suite of tools and services, we proactively support our customers by ensuring SLA terms compliance — remotely troubleshooting and capturing information, monitoring for predictive signals such as drive failure alerts, thermal conditions, and network loads — to address them prior to failure, maximizing the uptime of your critical security systems. *Avoid training employees on how to use our solutions:* when you partner with MCA, we shoulder the burden of managing technology upgrades and creating road maps for future technology upgrades, while maintaining and supporting your solution throughout its life-cycle.
