

## Houses of Worship

MCA Delivers Solutions Religious Institutions and Houses of Worship Need to Effectively Communicate, Secure Their Facilities, and Safeguard Their Congregations

### Improving Safety and Security at Religious Centers

Those who enter your church deserve a secure environment in which they can worship. But acts of violence in recent years that have targeted houses of worship have made some worshipers feel anything but safe. In the U.S., FBI hate crime statistics show that incidents in houses of worship increased nearly 35% between 2014 and 2018. The federal government increased the amount of funding to help the faith community with security costs from \$25 million in 2016 to \$180 million in 2021.

Many religious organizations have started to requested the presence of police officers from their local governments or have looked to hire private security guards to watch over services and events. Others have authorized specially trained members of their congregations to carry concealed weapons when formal security isn't an option. Today, many are looking to bolster their security measures with the addition of technologies created specifically to secure buildings for enhanced safety.

#### Keeping Your Members, Staff, and Guests Safe is Priority One

At MCA, we want to ensure that your people and the buildings within which they offer their prayers are safe. We provide solutions including, mass notification systems, integrated surveillance systems, Public Safety DAS, security command centers, perimeter detection technologies, and more, all working in concert to help ensure the safety of your people and facilities.

Public Safety DAS ensures first responders can quickly and clearly communicate from anywhere in your facility when responding to emergency calls of any kind.

Private LTE creates a secure wireless network for security systems, handheld devices, and POS systems to operate independently of your public guest Wi-Fi.

Our industry-leading intelligent video cameras easily integrate with security command centers and possess advanced AI search capabilities for constant vigilance.

Cellular DAS provides everyone inside your campus with reliable LTE coverage for personal devices, ensuring emergency SMS messages reach everyone quickly.

#### Professional Services

Our engineering services, project and system managers, and FCC Licensing provide you with a full-service team for the successful project design and deployment, with complete life-cycle support.

#### Installation Services

Our devoted staff of certified technicians cover it all — from radio site development, staging and testing, and system development, to installing aftermarket and OEM equipment within your facilities and fleet vehicles.

#### Solution Support

Our team provides full-service maintenance, repair, and managed solutions services. We manage your custom solutions so that you can focus your time on the spiritual needs of your members and guests.

#### Rental Services

Many of our ruggedized two-way radios are available via short and long-term rental programs. Our personalized and easy-to-use rental service meets your ever evolving communications and technology requirements.

## Radio Solutions

### MotoTRBO Radios

Connect instantly across your religious campus. Whether you need basic radios or advanced handhelds we have the devices to meet your specific needs.

### Wave PTX OnCloud

Connect your security, education, and admin teams at the push of a button across different networks and devices, including phones, tablets, two-way radios, and more.

### Wave PTX Dispatch

Effectively dispatch guards to address immediate concerns, send maintenance teams to remediate facility issues, and coordinate your outreach programs.

### Public Safety DAS

Ensure the safety and security of members, guests, and staff in the event of an emergency. PSR DAS solutions ensure open lines for first responder communications.

## Data Solutions

### Cellular Networking

Our cellular gateways can provide connectivity for failover continuity, remote digital signage management, and donation collection systems.

### Cellular DAS

Ensure your congregation members and staff can reliably connect to public cellular networks throughout your worship center, especially in areas for poor reception.

### Private LTE and CBRS

Get the infrastructure you need to maintain robust and private network connectivity across your religious campus for secure voice, data, and video communications.

### Mass Notification Systems

Ensure everyone campus-wide is aware of emergencies and has the information they need to get to safety with duress buttons, SMS messaging, siren alerts, and more.

## Security Solutions

### Video Surveillance

Protect your congregation with industry-leading intelligent surveillance systems to monitor your facilities - inside and out - with integrated AI analytics.

### Detection Systems

Our systems monitor religious centers for break-ins, concealed weapons, and more while also providing the ability to monitor for people and vehicles on watch lists.

### Access Control Systems

Our state-of-the-art access control systems with card readers, RFID scanners, and biometric capabilities keep your buildings safe by preventing unauthorized access.

### Integrated Solutions

With Orchestrate, you can ensure building safety more effectively with an integrated platform to connect voice, data, video, software, and analytics systems.

## Personnel and Fleet Solutions

### Mobile Video Systems

Vehicle mounted and body-worn camera systems help monitor your fleets and protect your people by providing digital recordings for evidence collection and training.

### Vehicle Area Networking

Whether you utilize buses to help worshippers get to services or vans to support outreach programs, we help get them connected and online for easy tracking.

### Incident Management

Streamline and manage end-to-end incident reports and record keeping for events like break-ins, thefts, and more from any web-enabled device with solutions from MCA.

### Rugged Handhelds

Panasonic Toughpads are the perfect to help track day care center drop-offs, register new members, collect donations, coordinate prayer groups, and more.
