

Public Safety

MCA offers a complete portfolio of fixed and mobile communications, security, and networking solutions for your public safety agencies

Mission-Critical Communications for Police, Fire, and Rescue Agencies

We provide first responders — *law enforcement agents, corrections officers, firefighters, EMT's, and other public safety officials* — the solutions they need to protect themselves and the communities they serve. Our two-radio systems and dispatch consoles keep your people in constant contact while our comprehensive physical and digital security systems keep your facilities (*and the critical assets and personnel*) they contain safe and secure. And we outfit all your facilities and vehicles with the reliable and secure public and private cellular networking solutions they need to deliver mission-critical voice, video, and data communications in the office and in the field.

Purpose-Built Equipment for Public Safety Agencies

MCA solutions for public safety are designed to withstand the most hazardous conditions and environments. Our mission-critical two-way radios, rugged laptops, best-in-class vehicle routers (*for use with dedicated public safety networks like FirstNet® and Verizon Frontline™*), private wireless networks, and more, provide your agency what it needs to successfully improve coordination efforts, reduce response times, and save more lives.

- Our two-way radios for public safety give your officers in the field the best in mission-critical communication •
- Our toughbooks, rugged laptops, and handhelds keep you connected under the most hazardous circumstances •
- With our in-vehicle routers your public safety officers will have reliable broadband coverage en-route and on-scene •
- MCA's video surveillance and access control systems protect your public safety agency's critical facilities and fixed assets •

Professional Services

We offer engineering services, project managers, system managers, and FCC Licensing to provide you with a full service team for the successful design, deployment and life-cycle support of your project.

Installation Services

From radio site development, staging and testing, and system development to installing aftermarket and OEM equipment to fleet vehicles, MCA has a devoted certified technical staff to meet your needs.

Solution Support

Our team provides full-service maintenance, repair and managed solutions services. Our dedicated support staff can manage your custom solutions — allowing you more time to focus on your business.

Rental Services

Many of our products are available via customer-friendly short and long-term rental programs. Our easy-to-use and personalized rental service helps meet your evolving communications and technology requirements.

Radio Solutions

Two-Way Radios

Motorola's APX P25 Two-Way Radios deliver clear and reliable voice communication under the roughest of conditions.

Computer-Aided Dispatch Consoles

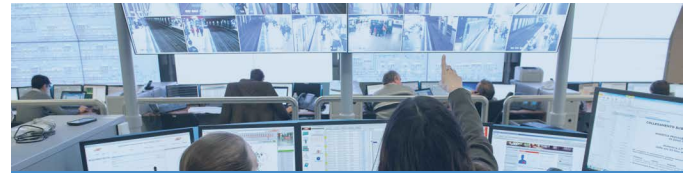

CAD systems, such as Motorola CommandCentral, enable effective communication between central dispatch and officers in the field.

Rugged Laptops

Built to withstand demanding work environments, our Panasonic Toughbooks and rugged laptops are the perfect devices for first responders.

In-Building Radio Coverage

With MCA's Public Safety DAS solutions, you can ensure that emergency first responders receive radio coverage from inside buildings.

Security Solutions

Video Surveillance

MCA delivers IP-based video surveillance systems with the latest in self-learning, and automated intelligence software for optimal security.

Detection Systems

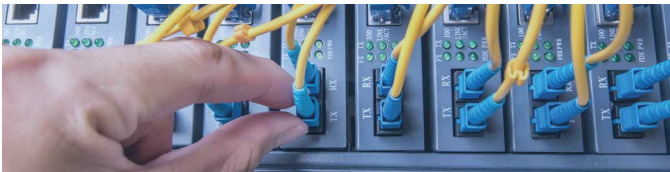

Our detection systems monitor your physical facilities for break-ins, trespassers, access to restricted areas, concealed weapons, and more.

Access Control Systems

We install state-of-the-art access control systems in public safety facilities with card readers, RFID scanners and biometric capabilities.

Cybersecurity Systems

We collaborate with public safety agencies to implement the latest cybersecurity technologies to manage and control their sensitive data.

Data Solutions

Public and First Responder Broadband

We offer a range of high-performance cellular routers, gateways, and other devices so that your primary and satellite stations will never lose coverage.

Mass Notification Systems

Our MNS solutions allow you to alert, inform, and direct members of the communities you serve to safety during large scale emergency events.

Private LTE and CBRS

With Motorola Nitro from MCA, we provide the best-in-class private LTE network for public safety agencies voice, video, and data communications.

Wireless Backhaul

MCA can provide public safety agencies the wireless backhaul solutions (*cellular, microwave, etc*) their facilities need for primary and backup connectivity.

Vehicle Solutions

Vehicle Area Networks

Our purpose-built single and dual radio 5G cellular routers enable real-time communication between first responder vehicles and central command.

Mobile Command Centers

MCA provisions and installs purpose-built cellular routers and antenna kits in public safety command vehicles for mobile command infrastructure.

Mobile Video Systems

Vehicle and body-worn video camera systems protect the public and your field personnel while responding to emergencies enroute and on-scene.

Portable Networking Devices

Our self-contained, rugged communications kits provide up to 48 hours of 4G and 5G connectivity to over 100 first responders at the flip of a switch.
