

Recreational Facilities

MCA offers a comprehensive set of solutions engineered to improve the safety, security, and efficiency of stadiums, concert halls, amusement parks, and their operations.

Communications Solutions for Stadiums, Event Halls, and Theme Parks

Ensuring that your large-scale events run smoothly and safely requires down-to-the-minute precision, crystal clear lines of communication, and industry-leading surveillance — all backed by reliable and secure data networks. MCA's recreation and entertainment services provide solutions that help events — from professional sporting events to local fair grounds and everything in between — run smoothly and safely. These solutions alleviate miscommunication, allowing for an event absent of errors and delays.

Elevate Event Coordination, Game Management, & Security

Elevating your event coordination, game management, and site security is made possible by the stellar communications infrastructure the team at MCA is able to provide. Designed to ease the stress of an exciting event by opening clear lines of communication, our various radio, cellular, and surveillance selections are guaranteed to meet your organizations exacting needs and specifications.

- Our Video Surveillance and Intelligent Video Analytics Systems offer the latest in IP-based security •
- MCA's vast inventory of Motorola two-way radios and Panasonic Toughbooks keep your teams connected •
- With Motorola Nitro from MCA, your facilities can be on a private broadband network for voice, video, and data •
- MCA's Industrial IoT solutions offer technologies that allow you to automate critical infrastructure operations remotely •

Professional Services

We offer engineering services, project managers, system managers, and FCC Licensing to provide you with a full service team for the successful design, deployment and life-cycle support of your project.

Solution Support

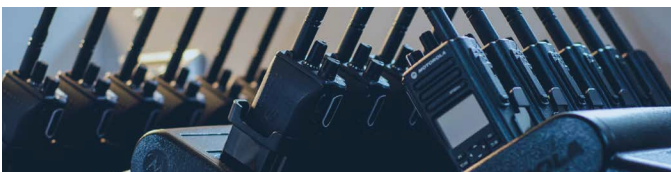

Our team provides full-service maintenance, repair and managed solutions services. Our dedicated support staff can manage your custom solutions — allowing you more time to focus on your business.

Installation Services

From radio site development, staging and testing, and system development to installing aftermarket and OEM equipment to fleet vehicles, MCA has a devoted certified technical staff to meet your needs.

Rental Services

Many of our products are available via customer-friendly short and long-term rental programs. Our easy-to-use and personalized rental service helps meet your evolving communications and technology requirements.

Radio Solutions

Crystal Clear Audio

MotoTRBO two-way radios redefine communication with the clearest, loudest audio with easy-to-use, rugged hand-held and headset devices.

Instant Push-to-Talk

Put real-time information in the hands of your field and on-site personnel, providing real-time information for improved response times.

Public Safety DAS

Ensure ERRCs communications work throughout your entire venue with PSR DAS solutions to ensure open lines for first responder communications.

Audits and Assessments

We perform a full audit of your existing fixed and mobile radio systems, then make recommendations on equipment, training, or system overhauls.

Security Solutions

Video Surveillance

We provide the latest in end-to-end, "eyes-on-the-scene" video security combined with AI video analytics for improved response and control.

Detection Systems

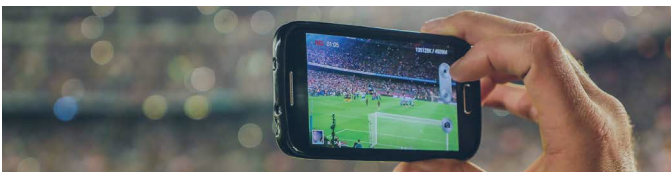

Our detection systems monitor your digital networks for unauthorized activities, while our physical systems monitor for weapons, intruders, and more.

Access Control Systems

Our key cards, biometric locks, and other automated solutions avert unauthorized access to secure locations within your organization.

Mass Notification Systems

From fire alarms to disaster and weather alerting systems, our mass notification solutions will keep your customers and employees safe.

Data Solutions

Cellular Distributed Antenna Systems (DAS)

Ensure your thousands of visitors, employees, and connected pieces of equipment can reliably connect to public cellular networks facility-wide.

Wireless Surveillance Networking

Whether monitoring a 50+ acre fairground or an enclosed arena with thousands of guests, we ensure the networks your systems operate on are fast, reliable, and secure.

Point-of-Sale Communications

When attendees visit kiosks, ticketing booths, and concession stands, our cellular connectivity solutions ensure your point-of-sale systems stay online.

Private LTE and CBRS

We'll build the infrastructure you need to transmit and receive private and secure voice, data, and video communications with Motorola Nitro™.

Vehicle Solutions

In-Vehicle Computing and Upfitting

If you operate a private EMS team, your emergency vehicles need rugged laptops, computer mounting equipment, powerful sirens, PA systems, and more.

Vehicle Area Networks

Our purpose-built cellular routers let you know exactly where all your mobile assets are - from golf carts to security vehicles - to track and monitor their activity.

Vehicle Telematics

Oversee vehicle performance, diagnose the health of your fleet, and assess driver behavior, location, and even identify inclement driving conditions.

Mobile Video-Systems

Vehicle and body-worn video camera systems protect your guests, security officers, and maintenance teams while en-route and on-scene.
