

## Healthcare Facilities

At MCA, we help hospitals and medical centers overcome the challenges associated with creating safe and secure healthcare environments.

### Mitigating Concerns in the Healthcare Industry

When you're operating a hospital or healthcare facility, you need communication and technology solutions built for the nonstop and unpredictable flow of patients, visitors, and staff. At MCA, we understand your need for a safer healthcare environment with better response times and improved outcomes for patients.

We possess an extensive portfolio of security products and services, from perimeter breach detection to nurse call systems to ensure the safety and security of healthcare workers and patients. According to OSHA (the Occupational Safety and Health Association), 75% of workplace assaults occur in the healthcare industry. 93% of those assaults occurred when patients or visitors attacked healthcare workers.

#### Purpose-Built Solutions for Hospitals and Medical Facilities

With the right technologies in place, you can ensure doctors, nurses, and staff stay connected from anywhere in your facility or on your hospital campus. Our security solutions and cellular connectivity systems empower you to save lives and protect your people, and the communities they serve.

- AI and Video Analytics ecosystems are developed to help you detect, verify, and respond to critical incidents in real-time •
- ALPR cameras instantly read and compare approaching vehicle plates against watch lists to keep your facilities secure •
  - Our nurse call systems allow for simple, and instantaneous, communication between patients and hospital staff •
  - Our D.A.S. solutions for public safety radio and consumer cellular frequencies boost in-building communications •

#### Professional Services

We offer engineering services, project managers, system managers, and FCC Licensing to provide you with a full service team for the successful design, deployment and life-cycle support of your project.

#### Installation Services

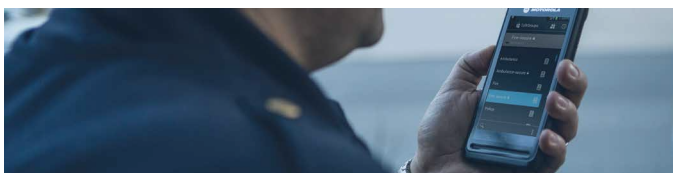

From radio site development, staging and testing, and system development to installing aftermarket and OEM equipment to fleet vehicles, MCA has a devoted certified technical staff to meet your needs.

#### Solution Support

Our team provides full-service maintenance, repair and managed solutions services. Our dedicated support staff can manage your customized solutions — allowing you more time to focus on your business.

#### Rental Services

Many of our products are available via customer-friendly short and long-term rental programs. Our easy-to-use and personalized rental service helps meet your evolving communications and technology requirements.

## Radio Solutions

### MotoTRBO Radios & Rentals

Connect instantly across your facility with stock or custom radios systems designed to meet your specific needs and coverage area requirements.

### Motorola Wave Push-to-Talk

Connect medical and security teams at the push of a button across different networks and devices, including phones, tablets, computers, and two-way radios.

### PTX Dispatch Systems

WAVE PTX™ Dispatch simplifies daily operations. CAD integrated with GIS and AVL can eliminate the hassle of routing and rerouting EMS vehicles.

### Public Safety DAS

Ensure ERRCs communications work throughout your entire hospital with DAS solutions to ensure open lines of communication for first responders.

## Security Solutions

### Video Surveillance

Protect staff and patients with industry-leading intelligent video cameras with integrated software possessing advanced AI search capabilities.

### Detection Systems

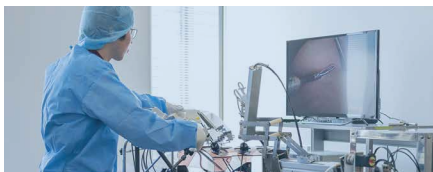

Our automated systems monitor your facilities for attempted access to restricted areas while also monitoring for people and vehicles on watch lists.

### Access Control Systems

We install state-of-the-art access control systems in high security areas like hospital pharmacies with card readers, RFID scanners and biometric capabilities.

### Integrated Solutions

With solutions like Orchestrate, you can automate operations at speed and scale with integrated voice, data, video, software, and analytics.

## Data Solutions

### Cellular DAS

Ensure that your staff, patients, visitors, and connected pieces of equipment can reliably connect to major carrier networks with our signal enhancement systems.

### Private Wireless

We'll build the infrastructure your facilities need to transmit and receive private and secure voice, data, and video communications with Nokia's DAC.

### Optical Networking

Our optical networking solutions deliver medical organizations the greater bandwidths, faster speeds, and lower latencies their healthcare facilities need.

## Fleet Solutions

### Vehicle Networking

Our purpose-built 4G and 5G vehicle routers enable real-time communication between EMS personnel and your emergency medical teams.

### Upfitting Services

MCA carries a full inventory of light bars, sirens, and speaker systems for emergency medical service (EMS) vehicles from top manufacturing partners like Whelen.

### Mobile Video Systems

Vehicle and body-worn cameras allow live streaming of emergency events for patient and staff safety and store footage for personnel training.

## Personnel Solutions

### Incident Management

Streamline and manage end-to-end incident reporting and record keeping from any web-enabled smart device utilizing Ally solutions from MCA.

### Mass Notification Systems

We collaborate with healthcare facilities to implement the latest alerting and notification systems, capable of panic and duress button activation.

### Rugged Smart Devices

We offer Panasonic Toughbooks and Toughpads, engineered for use in fast-paced environments with a high need for easy to manage and durable smart devices.
