

XR90 Product Description

The supercharged AirLink XR90 is purpose-built for public safety and transit with available dual-5G cellular radios and dual independent 4x4 MU MIMO Wi-Fi 6 antennas. The XR90 is the highest performing, most flexible router in the Semtech portfolio. It supports complete device-to-cloud security, reduces your total cost of ownership with AirLink[®] Management Service (ALMS) Out-of-Band management, and with the cartridge-based design, enables long-term expandability and upgradability.

A Fully Integrated Solution

The AirLink XR90 is a fully-supported, complete solution with AirLink Premium for integrated device management, Advanced Mobility Reporting, 24/7 technical support and advance hardware replacement. AirLink Connection Manager delivers complete VPN security.

Ideal Applications

Mobile mission-critical applications in public safety, transit and field services. Delivers secure and reliable Vehicle Area Networks (VANS) for:

- Buses/Transit
- Ambulance/EMS
- Law Enforcement
- Benefits

- Fire
- Utilities
- Private Networking

• Designed for rugged mobile applications with military-grade aluminum die cast housing and adaptive power management

- Real-time connectivity with unmatched uplink and downlink speeds using Data Path Accelerated 5G, Wi-Fi 6 and 5 Gbps Ethernet technology
- "Always-on" connectivity using available dual cellular and dual Wi-Fi radios, and automatic failover using AirLink Cognitive Wireless
- Simplified set up and usability with AirLink OS and upgraded ALMS
- AirLink Premium with ALMS Out-of-Band Management provides zero-touch set up and reduced service calls, advanced coverage and fleet reporting, as well as advance hardware replacement

KEY FEATURES

5G High-Performance

Multi-Network Vehicle

Router for Transit, Rail

and First Responder

Fleets.

- Single or Dual 5G
- Dual 4x4 MU MIMO Wi-Fi 6
- Single 5G: 4 Gigabit
 Ethernet
- Dual 5G: 5 Gigabit
 Ethernet
- Single/Dual Serial
- GNSS with Dead Reckoning
- IP64 Rated
- AirLink OS with AirLink Premium

XR90 Services and Support

AIRLINK PREMIUM

AirLink Premium helps ensure your AirLink XR90 hardware operates at peak efficiency and is always accessible. With device management and robust mobility reporting combined with our best-in-class management service and technical support, this offering includes*:

- AirLink Management Service (ALMS) for remote device and security management
- Advanced Mobility Reporting (AMR): comprehensive coverage and fleet reporting to monitor your network and vehicles
- 24/7 technical support
- Extended hardware warranty up to 5 years maximum
- Advance Replacement: Provides same-day shipping for in-warranty router replacements, minimizing downtime, spare inventory and keeping your operations running smoothly
- For more information on AirLink Premium visit our web page

* With active subscription. 1-year subscription included with the XR90 purchase.

HYBRID CLOUD

This optional feature merges the benefits of cloud technology with on-premise security controls for the management of your AirLink XR and RX routers, offering ultimate security and control.

Hybrid Cloud is available to add to an active AirLink Complete or Premium subscription.

AIRLINK CONNECTION MANAGER (ACM) - MOBILE VPN

This purpose-built VPN solution securely extends your enterprise network to your AirLink router and its connected devices and applications.

Optimized for use in a mobile, multi-network environment it seamlessly maintains VPN tunnels as users roam between multiple carrier and Wi-Fi networks to prevent downtime and loss of communications.

Available in a FIPS 140-2 compliant offering.

ANTENNAS

- Tested and certified to provide guaranteed performance with all AirLink routers
- Accelerate deployment with always-on, end-to-end connectivity
- For more information on antennas specific to the XR90 router visit our *web page*
