

Radios for the Healthcare Industry

MCA IS YOUR TRUSTED ADVISOR FOR A SAFE, SECURE, AND EFFICIENT WORKPLACE.

Deploying Radio Solutions Within Medical Environments

Operating in non-stop, unpredictable environment constantly filled with patients, visitors, and staff requires durable and reliable technology solutions. MCA is here to provide your healthcare system critical communications solutions that increase operational efficiency, safety, and security. Whether you are in need of temporary or long-term solutions we can provide immediate deployment with a no hassle, turn-key solution that fits your unique needs.

Integrated Communications | Connecting Any Device, Anywhere, at Anytime

At MCA, we understand and appreciate the challenges of your Healthcare workplaces. Successfully operating medical clinics and healthcare environments requires durable and reliable technology solutions. In partnership with Motorola Solutions, our team can provide your organization the ability to connect your teams on any device, anywhere, at any time with added intelligence to help them make faster and more informed decisions.

Unified Communications | Radio Systems in Healthcare

Many healthcare communication solutions allow you to talk, text, share and send information among team members. But what if your teams could seamlessly communicate across devices? Unified Team Communications takes your existing communication investments, ties them together in one integrated platform and adds powerful built-in intelligence.

OUR UNIFIED COMMUNICATIONS PLATFORM... enables your security, engineering, environmental and facility management teams to collaborate and share vital information in critical situations.

OUR PUSH-TO-TALK SOLUTIONS... extends mission-critical communications across any device, anytime, anywhere - including smart devices your teams are already using.

Indiana Hospitals | Motorola Solutions in Action

Violent incidents impact nearly 90 percent of hospitals. To ensure the safe environment patients and visitors expect, it's imperative to prevent and quickly resolve incidents. However, security officials can't be in every area of the hospital. Instead, hospitals require clear and reliable communication between security, dispatchers and facility personnel across the entire campus.

That's why Indiana University (IU) Health North Central Region chose Motorola's MOTOTRBO™ digital radio platform to upgrade communications at their hospitals across the region.

- Next generation communications system that links all three hospitals for extended coverage
- Enhanced situational awareness with voice and data collaboration
- Always available communication with optimal clarity
- Greater security and more effective response
- Stronger personnel safety and better transparency

Industry Profile

- Healthcare Systems
- Hospitals and Medical Centers
- Assisted Living Facilities
- Medical Supply Operations
- Research Laboratories
- Mobile Emergency Care

Featured Solutions

- MotoTRBO R7 Series
- XPR 5000e Mobile Series
- XPR 3000e Series Radios
- EVX-261 Series Radios

XPR7000e Two-Way Radio

Large Hospitals and Medical Centers | [Device Recommendations](#)

MOTOTRBO™ R7 offers game-changing audio capabilities in a rugged, future-ready device that is intrinsically safe. Its advanced audio processing features ensure that your communications are loud and clear, while its rugged construction is ready for harsh environments, and advanced connectivity options get your healthcare workforce ready for tomorrow.

- Programmable loudness up to 107 phons
- 2.4 in. 320 x 240 px. QVGA display
- Adaptive Dual Microphone Noise Suppression
- Automatic Acoustic Feedback Suppression
- Sleek & compact form factor
- Modern, intuitive user experience
- IP68 water immersion certified
- Intrinsically Safe (UL TIA-4950)

XPR3000e Two-Way Radio

Medical Supply Operations | [Device Recommendations](#)

XPR 3000e or R7 Series Radios have excellent range, battery life and audio quality in all digital and analog systems, and a full suite of features to enhance safety and productivity. With integrated Wi-Fi, GPS and Bluetooth 4.0, you can be confident that your radio utilizes the latest technology and can keep up with your fast-paced work environment.

- Over-the-Air Software Updates
- Up to 8% Better Range
- Improved Expandability
- IP67 Waterproofing (IP68 w/R7)
- Channel Lock
- Used on Cap Plus Systems
- HazLoc models available
- Lone Worker Safety

EVX-261 Two-Way Radio

EMS Vehicles and Ambulances | [Device Recommendations](#)

With this dynamic evolution of MOTOTRBO™ digital two-way radios, you're better connected, safer and more productive. The XPR 5000e Series is designed for the skilled professional who refuses to compromise. With high-performance integrated voice and data, and advanced features for efficient operation, these next-generation radios deliver complete connectivity to your organization.

- Superb Audio & Quality
- Integrated Bluetooth for Audio and Data
- Emergency Button to send alerts
- Optional Full Color Display
- Enhanced GPS & Location Tracking
- Text Messaging & Work Order Ticketing

XPR5000e Mobile Radio

Laboratories and Assisted Living Facilities | [Device Recommendations](#)

Easy and affordable, the EVX-261 Series Radio, gets you started with basic voice communications. Operating in both analog and digital modes, it's ideal for use with mixed fleets. In digital mode, enjoy noise cancellation for crisp audio and clear conversations- eliminate equipment clutter and confusion by standardizing on one charging base for the entire team.

- Lone Worker Alert
- 16 Channels/ 1 Group
- Emergency Alert
- 2 Programmable Keys

About MCA | [Over 30 Years of Experience](#)

More than 30,000 customers trust MCA to provide wireless communication solutions for a safe, secure and more efficient workplace. As your trusted advisor, we reduce the time and effort needed to research, install, and maintain the right solutions to make your workplace better.

MCA offers a carefully curated portfolio of world-class voice, data and video products and solutions. With more than twenty product lines and hundreds of solutions, our team of certified professionals across the United States deliver a full suite of reliable technologies with a service first approach.

The MCA advantage is our extensive service portfolio to support the solution life-cycle from start to finish.
