

Severe Duty Bent Axis Piston Cutter

Bent Axis Piston Explanation:
 Bent-axis motors can be 'bent' to an angle of up-to around 40° and have a wider operating torque/speed range than an in-line motor of the same displacement.

The CID Severe Duty Piston Cutter is powered by a Parker bent axis piston motor. With a continuous cutting capacity of 10 inches, you will make quick work of your brush cutting needs. The 72" cutter has four blades/16 mulching teeth, and the 78" cutter has four blades/20 mulching teeth. Either option will allow for the ultimate mulching capability. The Severe Duty Cutter requires a case drain.

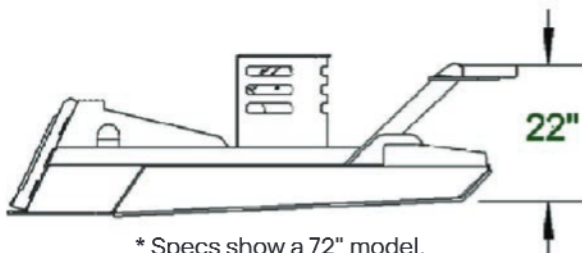

Severe Duty Piston Cutter

- 30-50 GPM & 20-30 GPM

- 10" Cutting Capacity
- Four - 3/4" AR400 Blades
- AR 400 Replaceable skid shoes
