

X-treme Fork Grapples

X-treme Fork Grapple

Our Fork Grapple is ideal for use on the farm, in logging operations and by general contractors. The top tine is adjustable for small or large loads and the hydraulic cylinder gives you plenty of clamping force. Our fork tines are completely heat treated from the tip to the heel.

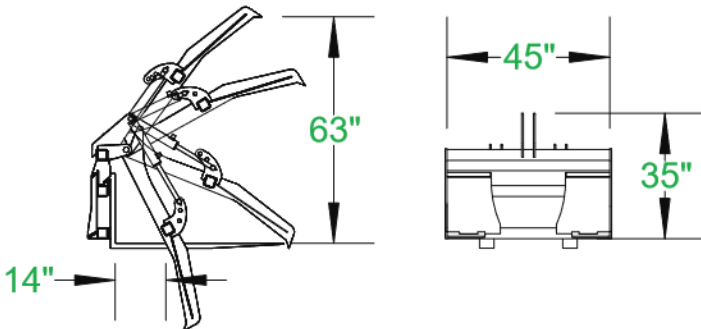

Class 2 shown

- Durable Heat Treated Forks
- See Spec. Sheet for Load Capacity
- Adjustable top tine to handle any size load
- 2" x 10" cylinder
- Available with 48", 60", 72" tines

X-treme Fork Grapple Specs

X-treme Mat Grapple

Our x-treme mat grapple is designed to pick up and move equipment mats. It can also be used to transport logs, poles and just about anything else. We build this in a class 3 carriage with a lifting capacity of 8,500 pounds.

- Durable Heat Treated Forks
- See Spec. Sheet for Load Capacity
- Designed to lift equipment mats
- Teeth on the grapple to grip the mats
- 60" forks standard
