

CONCRETE CLAW

The IronCraft concrete claw is designed to pick up big slabs of broken concrete on job sites, construction sites, driveways and sidewalks. The concrete claw can also be used to remove stumps, shrubs, bushes, and large rocks.

- 5/8" AR400 sides.
- 3/8" bottom & top plates.
- 4" square tube on top.
- 1" x 8" edge with 23 series teeth.
