

High Flow

Low Flow

## X-TREME SKID STEER ROTARY TILLER

The X-treme Rotary Tiller is a perfect attachment for tilling gardens and small fields. It's also great for deer hunters to use to make food plots. This tiller has a bidirectional rotation and can till ground up to 6" deep. We manufacture two configurations of rotary tillers. We make a low flow single motor tiller that runs between 14 -20 GPM. We also make a high flow tiller with a dual motor system that runs 20-40 GPM.

- Bolt on replaceable tines
- 1/4" plate, rolled housing
- 3/8" sides with 3/8" thick shoes
- Low Flow 14-20 gpm. Single parker motor with internal relief valve
- High Flow 20-40 gpm. Dual parker motors with internal relief valves and 3/4" machine hose
