

4 FOOT TRENCHER

This 4 foot trencher features high torque, efficient cutting/digging chain, and low maintenance costs. It comes equipped with an optimized chain, featuring 70% tungsten cutter teeth and 30% dirt scooping teeth for maximum cutting and trench clearing efficiency. The chain is available in a 6" or 8" wide version and can be set to 32", 40" or 48" trenching depths. A side shift mounting plate allows for offset trenching next to buildings and fences.
