

1100 ROTARY CUTTER

ROTARY CUTTERS | 48", 60" & 72"

Built for everyday mowing, the IronCraft 1100 Series delivers dependable cutting performance for pastures, property edges, and general land maintenance. Available in 48", 60", and 72" working widths, the series pairs a 1" cutting capacity with tractor requirements ranging from 15 to 65 PTO HP. Each model features an 11 GA deck, 55 HP gearbox, Series 4 PTO shaft, integrated skid shoes, a greaseable laminated tailwheel hub, and Cat 1 hitch. Shear pin or slip clutch driveline protection and your choice of rubber guards or chains make the 1100 Series a practical, economical option for everyday cutting.
