

## HAY ACCUMULATOR GRAPPLE

The Accumulator Grapple allows one man and a skid steer to gather 8 to 10 square bales, grapple them, lift and off load to a trailer. No need for multiple pieces of equipment, this is all operated from inside the skid steer using the Accumulator Grapple. Sides and dividers can be removed for more efficient grappling.

- 2 x 6 cylinder
- 9" grapple hooks
- Radial bearings
- 10 bale capacity
- Adjustable width sides
