

Our X-treme Tree Shear has a 5" bore cylinder that can generate up to 40 tons of shearing force. It is constructed with a 1" thick AR400 blade, which gives you the ability to cut up to 12" diameter trees and logs. It's design forces trees to fall consistently to the right, allowing the operator to accurately position where the tree will land.

- 1" thick AR400 blade
- 40 tons of shearing force
- Capable of cutting 12" trees
- Powered by a 5" x 12" cylinder
