**MINI SKID STEER
STUMP GRINDER**

RAVAGER STUMP GRINDER

MINI SKID STEER

The CID Mini Stump Grinder is built to chew through stubborn stumps without slowing you down. Powered by a radial piston motor that delivers blistering tip speeds up to 159 mph with no case drain required for aggressive cutting performance. The large 25-inch cutting diameter helps remove more material with each pass, while hydraulic flow compatibility from 10-17 GPM ensures efficient operation across a wide range of mini skid steers. Designed for heavy-duty use, its compact footprint provides the visibility and control needed for residential, commercial, and municipal stump removal.

MINI SKID STEER STUMP GRINDER

SKU	MINISTG1017-D
MOTOR	Radial Piston Motor
FLOW RANGE	10-17 GPM
RPM	1,261-2,145
TIP SPEED	94-159 MPH
TIP SPEED	8,254-14,032 ft/min
WEIGHT	530 Lbs.
CUT DIAMETER	25"
CASE DRAIN	Not Required
