# UNLOCK YOUR TEAM'S POTENTIAL

TECHNICAL TRAINING THAT TRANSFORMS YOUR TEAM

- Upskill team members to fill skill gaps
- Build better problem-solving skills across your teams
- Keep everyone engaged, motivated, and connected through learning
- Empower innovation and cross-functional collaboration across teams
- Improve employee retention by offering opportunities to grow
- Help your team to quickly adapt to new technologies
- Establish a knowledge baseline across your team

WHY CODECADEMY TEAMS?

LEARN BY DOING
With interactive lessons and hands-on practice, your team works directly in the browser to apply new skills right from day one.

GET STEP-BY-STEP GUIDANCE
Guided paths outline exactly what team members need to do to upgrade their skills, gain a specialization, or quickly get up to speed.

MAINTAIN TEAM MOTIVATION
Code challenges, weekly targets, and a supportive global community help your team members stay motivated and engaged.

VISUALIZE PROGRESS
Real-time reports simplify your insights. Quickly interpret data, track progress, and make more informed decisions.

EASILY MANAGE MULTIPLE TRAININGS
Create and manage multiple training programs, customize learning experiences, and easily transfer seats from one employee to another.

QUICKLY FIND AND ASSIGN CONTENT
Smart content assignment helps you find, compare, and assign the most relevant content for your team's goals within seconds.

TRUSTED BY INDUSTRY LEADERS
