

YOUR AT-PLANT PARTNERSHIP

FMC offers a comprehensive portfolio of at-plant crop protection technologies, that pair perfectly with Precision Planting® equipment, to support seedling success. This includes **liquid fertilizer ready (LFR) formulations** designed for superior mixing and stability in liquid fertilizers. Xyway® LFR® fungicide is the premier product offering that provides season-long disease control from the inside out and is compatible with Precision Planting equipment.

XYWAY LFR FUNGICIDE QUICK FACTS:

- Offers best-in-class residual and systemic activity to protect plants all season long.
- Contains the active ingredient flutriafol (Group 3).
 - Provides unmatched residual activity and translocation throughout the plant.
 - Taken up by the roots and stays active in the plant all season long to help provide strong root and stalk health. This capacity of an active ingredient and its residual has not been demonstrated by any other fungicide on the market.
- Supports outstanding stalk health and standability.
- Labeled for gray leaf spot, Northern corn leaf blight, common rust, Southern corn leaf blight and more.

APPLICATION INFORMATION:

- Equipment: Compatible with Precision Planting's [FurrowJet](#) (wings only) and [Conceal](#).
- Rate: 15.2 fl. oz./A at-plant, based on 30" row spacing. FMC recommends that Xyway LFR fungicide be placed off or away from the seed by a minimum of 0.5-4 inches.
- Type: Can be applied at-plant via T-band, modified in-furrow, drip irrigation, preplant injection, preemergence band, postemergence band and postemergence directed.
- The FMC Xyway LFR fungicide equipment program can be used alongside other equipment programs. Talk with your Precision Planting or FMC representative for more information.

XYWAY® LFR® FUNGICIDE EQUIPMENT PROGRAM

PROGRAM DESCRIPTION:

The 2023 FMC Xyway® LFR® Fungicide Equipment Program has been established to increase access for growers who want to use Xyway LFR fungicide via indirect placement i.e., 2x2 inch, 2x2x2 dual-placement, or similar placements*, a minimum of 0.5 inches off the seed. This incentive is designed to reimburse growers, in part, for the cost of equipment used to help growers experience Xyway LFR fungicide and its game-changing, systemic, inside-out protection.

Growers can earn an incentive of \$2 per acre when applying the full rate of Xyway LFR fungicide to be used toward qualifying equipment purchases up to \$6,000. The rebate cannot exceed the equipment cost, and equipment must be purchased during the current program year July 1, 2022, through June 30, 2023.

QUALIFIED LIST FOR INDIRECT APPLICATION
Xyway LFR fungicide equipment, parts, or update kits
Tanks for planters or tractors
Rate controlling systems
Agitation systems
Recirculation pumps
Placement devices

Equipment not on this qualified list must be preapproved by your local FMC retail marketing manager (RMM). All submissions for reimbursement must be done electronically through equipment reimbursement portal or QR code at retail or via FMC RMM.

The following information is required:

- Enter contact information.
- Enter quantity of Xyway LFR fungicide purchased.
- Upload Xyway LFR fungicide invoice from retailer. Invoice claims will be confirmed through GPOS data.
- Upload receipt for equipment purchase.

Program Period: July 1, 2022 – June 30, 2023

Program Payment: December 31, 2023

Program Geography: U.S. corn and cotton acres

Qualification Details: Grower must purchase Xyway LFR fungicide and equipment during program dates to qualify.

PROGRAM RULES & CONDITIONS:

1. FMC reserves the right to change any or all features of the 2022-2023 Xyway LFR Fungicide Equipment Program for growers.
2. Proof of purchase is required. Only product purchased from an FMC authorized distributor or retailer is eligible for payment under this program.
3. Payments will only be paid to corn, cotton or (soybeans once labeled) growers who use Xyway LFR fungicide on corn, cotton or (soybeans once labeled).
4. Incentive checks will not be issued for less than \$200.
5. Misreported sales of any type will be a clear violation of this program and will be subject to audit and possible forfeiture of all payments.
