

Analytics

Generating a Report

1. Navigate to Analytics ->Reports
2. Here you can choose what report you would like
3. Select the report from the report builder and click Generate Report to make the report

The screenshot shows the PTx Reports interface. On the left is a navigation menu with options: Map, Setup, Plan, Track, Analytics, Reports (highlighted), and Data Transfer. The main area is titled 'Report Builder' and is split into two panels. The left panel, 'Select Report', lists report categories: Seed Reports, Fertilizer Reports, Pesticide/Product Reports, General Reports, and Field Manager Reports, each with a plus sign. The right panel, 'Report Options', contains a search bar and a table. The table has columns: XR, ID, Crop Zone, Location, Acres, Crop - Desc, and Variety. A checkbox 'Select Crop Zones' is checked. The table contains one row of data.

| XR | ID | Crop Zone | Location | Acres | Crop - Desc | Variety |
|----|--------|-----------|----------|-------|-------------|---------|
| | 222509 | Highway | | 50.49 | Wheat | |

Note: Reports are generated based on Crop Zone Activities only.
