

# color code

ceramic wall tile, made in usa

Color Code is a design concept that celebrates the essence of color as inspiration. Drawing from the timeless character of English brick, the collection reimagines surfaces transformed by weathering and painting. Together, these curated hues are tailored to inspire creative interior design with history and artistry at their core.

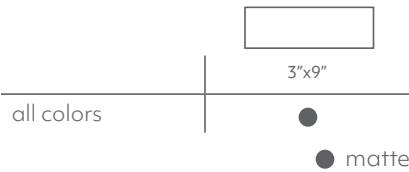

# color code

ceramic wall tile, made in usa

santorini	lhama	capadocia	savannah	patagonia	siberian
