- Universal Life Insurance
- Indexed Universal Life Insurance
- Term Life Insurance

## Retirement Products

A key to any financial strategy is preparing for retirement. Here are options to help you prepare for your leisure years:

- Fixed Annuities
- Fixed Indexed Annuities

## Estate Preservation<sup>4</sup>

Without a personal legal strategy, the value of your estate could be eroded by federal and estate taxes. This could result in a disposition of your assets that you did not intend to happen. Some options are:

- Charitable strategies
- Charitable Remainder Trusts
- Wealth Replacement Trusts
- Irrevocable Life Insurance Trusts

Make sure to speak to your tax professional to determine the financial impact of these and other strategies, and contact your legal professional to draft wills, trusts or other needed legal documents. Life insurance is often a crucial part of a legacy strategy, and your WFGIA agent can help you determine which products may be appropriate for your needs.

## Long Term Care Insurance

A plan to cover long-term care expenses is often overlooked but can be a critical component of a solid financial foundation. Although your need for long-term care may be far into the future, the time to plan for it is now to help ensure expenses are covered if or when extended care is needed.

Life insurance is often a crucial part of a **financial strategy.**

It's important for a business owner not only to invest in the company but also in the employees who work there. Ask about the option to help reward and retain personnel with a 412(e)(3), a defined benefit pension plan.

TFA is dedicated to serving **people** from all walks of life by helping them create an individualized investment strategy.

# Personal Strategies from TFA<sup>5</sup>

A financial professional registered with TFA can offer you more ways to put your money to work for you.

As you save, invest, and protect your assets and prepare for retirement, securities-related products can give you additional ways to pursue your goals. Now's the time to start exploring strategies that might work for you.

## Individual Financial Services

Few people have a clear understanding of their financial situation and the amount of money they need to invest to reach their goals. Your TFA financial professional works with you to help change that by offering:

- Financial Needs Analysis<sup>3</sup>
- Financial goal setting
- Recommendations and their implementation
- Strategies for pursuing financial goals
- Investments and asset allocation strategies<sup>6</sup>

## Insurance Protection

A comprehensive financial strategy should include insurance protection. Depending on your goals, a life insurance policy with an investment component might work for you. In addition to the products offered through WFGIA, a TFA representative can offer you the following cash value life insurance option:

- Variable Universal Life Insurance

## Retirement Planning

As you start preparing for retirement, you may have more questions than answers. Talk to your TFA financial professional to see if the following products and plans can work as part of your retirement strategy:

- Mutual Funds
- Variable Annuities

## College Funding Plans

Whether preparing to send your first or fifth child to college, you should begin saving now.

- 529 College Savings Plans

Many states offer residents a deduction or credit on personal income tax returns for contributions to in-state plans while some states give favorable tax treatment for contributions to any 529 plan. Withdrawals of earnings in a 529 plan are state tax deferred and federal income tax free when used for qualified higher education expenses. Tax advantages, fees, restrictions and investment options can vary widely from plan to plan, so clients should review a plan's offering circular or disclosure document prior to investing. Clients are advised to consult with their tax professional or contact the program representatives in their state to determine the state tax rules that apply to their circumstances.
