In collaboration with Farm Business Farm Management (FBFM), this program builds on the content delivered in FCI's workshop, Farm Financials 1: Statements & Analysis.

- Dive deeper into understanding financial ratios and best practices of successful operations
- Understand the loan process and how credit analysts view your farm's financials
- Leave equipped with tools to better monitor and forecast your farm's financial trendlines

The session will be led by FCI staff passionate about growing your confidence in understanding the financials of your operation.
