Trendsetter® LB

Term protection combined with included living benefit riders that accelerate the death benefit for a qualifying terminal, chronic, or critical illness. Term durations available of 10, 15, 20, 25, and 30 years.

- Up to \$1.5 million of death benefit may be accelerated for any qualifying event with the living benefit riders
- Commissionable policy fees (\$60 in Band 1; \$30 in Bands 2-4)
- Competitive pricing based on age last birthday

¹ Riders are available at an additional cost. Riders and rider benefits have specific limitations and may not be available in all jurisdictions. Benefits paid under accelerated death benefit riders, including the Long Term Care Rider, will reduce the life insurance policy's death benefit and policy value. For complete details including the terms and conditions of each rider and exact coverage provided, please refer to the riders.

² There are administrative fees. There are no ongoing/recurring monthly fees to have these riders on a policy but there are charges and fees when utilized.

³ The increasing death benefit will result in higher monthly deductions over the life of the policy than the level death benefit option.⁴ If the Long Term Care Rider is on the policy, then it is not eligible for Chronic Illness Rider.

⁵ Loans, withdrawals, and death benefit accelerations will reduce the policy value and the death benefit and may increase lapse risk. Policy loans are tax-free provided the policy remains in force. If the policy is surrendered or lapses, the amount of the policy loan will be considered a distribution from the policy and will be taxable to the extent that such loan plus other distributions at that time exceed the policy basis.

⁶ The Persistency Credit is a discretionary credit that may or may not be paid.
