INTRODUCING  
**FCIUL II**

Tax-advantaged  
choice & flexibility

**Transamerica Financial Choice IUL<sup>SM</sup> II** (FCIUL II) is index universal life insurance designed for affluent clients seeking choice, flexibility, and tax-free\* supplemental income through loans and withdrawals. FCIUL II offers life insurance protection and a variety of index options and policy features to help maximize policy value accumulation potential and make it easy to access cash value.

<b>POLICY TYPE</b>	<b>Index universal life</b>

\* As long as the policy is not a modified endowment contract (MEC)

For Agent Use Only. Not for Use With the Public.

<b>TRANSFERS</b>	Transfers from all index accounts to the other accounts are allowed at the end of a Segment Period (15 <sup>th</sup> of the month). Transfers from the Basic Interest Account (BIA) to the other accounts are only allowed once per month on the sweep date (15 <sup>th</sup> of the month). Automatic Transfer Rule (ATR) is for those policy owners who would like to maintain a specific percentage of their policy value in certain accounts. The ATR only applies to maturing Index Account (IA) Segments. BIA does not create segments, the system will look for funds in the BIA every sweep date (15 <sup>th</sup> of the month). At the end of the segment, and/or on sweep date, any eligible policy value is rebalanced to match the policy owner's requested allocation.
<b>WITHDRAWALS<sup>7</sup></b>	Maximum is cash surrender value minus \$500. Minimum withdrawal amount allowed is \$500. No withdrawal fee. There is a Partial Surrender Charge for withdrawals that reduce the face amount if taken during the surrender charge period. Excess Index Interest will not be credited on amounts taken as withdrawals from an Index Account Segment prior to the end of the Segment Period. Available after the first policy anniversary.
<b>CONVERSION</b>	Conversions from term policies are subject to conversion guidelines.
<b>LOANS<sup>7,8</sup></b>	<p>Minimum: <b>\$500</b>  Maximum: The policy value minus the loan balance, minus the loan interest that will accrue prior to the next anniversary, minus the greater of the surrender charge or two monthly deductions.  Excess Index Interest will not be credited on amounts taken as loans from an Index Account Segment prior to the end of the Segment Period.</p> <p><b>Conventional</b> (standard &amp; preferred) loans</p> <ul style="list-style-type: none"> <li>Available any time after the Free-Look period</li> <li>2% annual interest credit on loaned value</li> <li>Guaranteed interest rates (charged annually) 3% standard, 2.25% preferred</li> <li>Nonguaranteed interest rates (charged annually) 2.75% standard, 2% preferred</li> <li>All conventional loans will be classified as "preferred" after 10<sup>th</sup> policy anniversary</li> </ul> <p><b>Index Loans</b></p> <ul style="list-style-type: none"> <li>Allowed after fifth policy anniversary</li> <li>Credited interest rate will vary as it will equal index account rates</li> <li>Interest rate (charged annually) 8% guaranteed, 5% nonguaranteed</li> </ul>
<b>POLICY FEE<sup>9</sup></b>	<b>\$10</b> /month current; <b>\$12</b> /month guaranteed
<b>COST OF INSURANCE<sup>9</sup></b>	Charge varies based on insured's age, class of risk and gender, and the policy's face amount and duration.
<b>PER UNIT CHARGE<sup>9</sup></b>	A charge per thousand of the face amount of the Base Policy. This charge varies by gender, tobacco use, age of the insured, and the face amount band. Base: On a current basis, the charge applies for 15 years from issue and 15 years from the date of any face amount increase. On a guaranteed basis, the charge remains level in all years. State variations may apply.
<b>PERSISTENCY CREDIT<sup>10</sup></b>	<p>A nonguaranteed annual Persistency Credit may be applied to the current policy value according to premium allocation instructions.</p> <ul style="list-style-type: none"> <li>If payable, we will begin paying at the: <ul style="list-style-type: none"> <li>Beginning of policy year 11 (after 10<sup>th</sup> policy anniversary)</li> <li>A one-time test will be performed to determine whether the cumulative premium meets or exceeds the table-driven threshold (value will be shown in the illustration)</li> </ul> </li> <li>Persistency Credit Threshold amount is set at Policy Issue and does not change with any policy changes (i.e., decreases, increases, etc.)</li> <li>If the threshold is met and Persistency Credit is payable, the Persistency Credit will be paid through attained age 120. We will credit 0.40% (percentage can change at any time) of the current unloaned policy value (net of loans and withdrawals)</li> <li>Persistency Credit is not available if policy has lapsed and is reinstated</li> </ul>
<b>PREMIUM EXPENSE CHARGE</b>	Current: 8% for years 1-10 and 5% for years 11+ Guaranteed: 8% for years 1-10 and 10% for years 11+
<b>INDEX ACCOUNT MONTHLY CHARGE<sup>11</sup></b>	S&P 500 <sup>®</sup> Index Account, Global Index Account, and Fidelity Small-Mid Multifactor Index <sup>SM</sup> Account: 0% S&P 500 <sup>®</sup> Plus Index Account and Global Plus Index Account: 1% annually (0.08333% monthly) Both are calculated based on the total value in the Plus Index accounts and are taken on the monthly policy date. Balanced Uncapped Index Account: 0.15% annually (0.01250% monthly)

<sup>1</sup> Minimum insured age is 15 days.

<sup>2</sup> \$250,000 will be the minimum at this time.

<sup>3</sup> Accelerated Death Benefits may be available when the insured has been diagnosed with a qualifying event, as described in the rider, while the policy and the rider are in force. Benefits advanced under this rider may be subject to taxation. Limitations and exclusions apply. Refer to the rider for complete details.

<sup>4</sup> It is possible that additional payments will be required to keep a policy in force while the monthly deductions are being waived. For example, loan interest accruing on an outstanding loan may require additional payments.

<sup>5</sup> It is possible that additional payments will be required to keep a policy in force while the Disability Waiver of Premium Benefit is being paid. For example, an increase in monthly deductions or decrease in policy value may require additional payments.

<sup>6</sup> The Fidelity Small-Mid Multifactor Index<sup>SM</sup> 5% ER, also called the Fidelity SMID Multifactor Index<sup>SM</sup>, (the "Index") is a product of Fidelity Product Services LLC ("FPS"). It is a rules-based index that utilizes a dynamic asset allocation approach which blends multiple factors with the characteristics of stocks of small and mid-capitalization U.S. companies along with U.S. Treasuries, which may reduce volatility over time. Fidelity is a trademark of FMR LLC. The Index has been licensed for use by Transamerica Life Insurance Company ("the Company") in connection with the *Transamerica Financial Choice IUL II*<sup>SM</sup> ("policy"). The Index is the exclusive property of FPS and is made and compiled without regard to the needs, including, but not limited to, the suitability needs, of the Company, the policy, or the policy owners. The policy is not sold, sponsored, endorsed, or promoted by FPS or any other party involved in, or related to, making or compiling the Index. The Company exercises sole discretion in determining whether and how the policy will be linked to the value of the Index. FPS does not provide investment advice to the policy owners, nor to any other person or entity with respect to the Index and in no event shall any policy owner be deemed to be a client of FPS. This index is based on an excess return design, meaning that index returns are netted against a risk-free return. It is a volatility controlled index, which means that the index composition will change over time and in particular when market volatility changes. The effect of the excess return design and the volatility control may limit returns when equity index returns are high.

Neither FPS nor any other party involved in, or related to, making or compiling the Index has any obligation to continue to provide the Index to the Company with respect to the policy. Neither FPS nor any other party involved in, or related to, making or compiling the Index makes any representation regarding the Index, Index information, performance, life insurance generally or the policy particularly.

**FPS disclaims all warranties, express or implied, including all warranties of merchantability or fitness for a particular purpose or use. FPS shall have no responsibility or liability whatsoever with respect to the policy.**

<sup>7</sup> Loans, withdrawals, and death benefit accelerations will reduce the policy value and death benefit. Provided the policy is not and does not become a modified endowment contract (MEC), 1) withdrawals are tax-free to the extent that they do not exceed the policy basis (generally, premiums paid less withdrawals) and 2) policy loans are tax-free as long as the policy remains in force. If the policy is surrendered or lapses, the amount of the policy loan will be considered a distribution from the policy and will be taxable to the extent that such loan plus other distributions at that time exceed the policy basis.

<sup>8</sup> The company reserves the right to discontinue index loans at any time and convert existing index loans to conventional loans.

<sup>9</sup> The company has the right to change current charges and cost of insurance rates. The company may not charge more than the guaranteed maximum charges or rates. Any changes to charges or rates will be based on our expectations as to future cost factors. Such cost factors may include, but are not limited to, mortality, interest, persistency, expenses, reinsurance costs, and state and federal taxes. Any increased policy charges, partial withdrawals or loans, failure to pay planned premiums, or worse than expected index performance can (a) reduce the amount of future withdrawals or loans that can be taken and (b) in many cases, increase the risk of policy lapse, reduce the death benefit proceeds, and increase the amount of monthly deductions.

<sup>10</sup> Persistency Credit is a discretionary credit which may or may not be paid.

<sup>11</sup> If there is a conventional loan the charge is only against the unloaned portion of the Plus account. If there is an index loan, the Index Account Monthly Charge (IAMC) is assessed against the entire value in the Plus account (including loaned value). IAMCs will be taken from the applicable Plus account's unloaned value, pro rata across segments within that account. If there is not enough unloaned value in that account to pay the IAMC, the remaining charge will be taken pro rata by the unloaned value in all remaining accounts and pro rata across segments within each account. The IAMC is not subtracted from the cumulative guaranteed value. Not part of the Monthly Deductions for contract language purposes. IAMC is reversed as part of the premium refund if the Free-Look right is exercised.
