TRANSAMERICA®

INTRO, TIPS, & TRICKS

Working with multiple carriers and managing all your contacts can get complicated.

That's why we've prepared an easy-to-navigate contact sheet for our valued agents and firms. All of your common contacts are now within arm's reach to help you sell, place, and manage business.

QUICK START GUIDE

We process business on a first-in, first-out basis. This means we always work business in the order it's received. Should a mistake be identified, internal Transamerica support is able to request expedited processing to address the issue.

The standard processing time for email requests is 24–48 hours. Specific processing for various departments is detailed in this packet to provide a realistic timeframe. Escalations should be directed to your internal contact if these timeframes have not been met, however, you should first check the portal as the most up-to-date information on specific cases will always be posted there.

When reaching out to our teams, please first use the regular processing email box for the team you need to contact. If you don't get resolution from that email, then use the escalation email box (if applicable). If not, please reach out to your internal contact to escalate on your behalf.

Please do not use or share individual contact email addresses (Account Managers or Sales Partners being the exceptions). Since these individuals work primarily in their department's email box, they may not always check their personal inboxes regularly. This can cause further delays when you're trying to get help.

For escalations, please send the full email chain to your Transamerica partner so they can review what has been done, to determine the next best steps to resolve the issue the most efficient way.

The most efficient way to resolve issues is to keep one line of communication. Emailing several contacts about the same issue (without others knowing) can cause unnecessary delays. If another contact is brought in, please copy (CC:) previous individuals or teams.

Our contacts are here to help in any way they can, but we're all human. Should one of our processors ever provide incorrect information, they will be coached to ensure that information is not shared again. Keep in mind, Transamerica will not always be able to honor answers given in error.
