

DAT Partner Ecosystem

Smarter workflows with DAT's partner ecosystem

Inject DAT's industry-leading data directly into the tools you rely on every day. With pre-built, fully supported integrations, you get dependable market intelligence inside your TMS, planning, and orchestration platforms. No extra steps, no IT headaches — just smarter, faster decisions where your team already works.

The value of integrated workflows

Faster adoption and stronger ROI with pre-built integrations

Greater flexibility through our expanding partner network

Smarter, faster decision-making right inside your systems

Trusted partners, proven results

Integrating DAT's expanding network allows you to seamlessly incorporate dependable data into your current systems, including TMS platforms, planning tools, and personalized dashboards. Here are just a few of the partners we work with to provide market intelligence directly in shipper workflows:

Oracle's TMS	GoodShip's freight orchestration platform	Shipwell's TMS	Keelvar's sourcing and planning platform
Benchmark bids, improve award accuracy, and speed procurement.	Optimize carrier selection and boost on-time performance.	Cut costs and improve routing compliance with integrated DAT rates.	Streamline bid evaluations and award lanes faster with confidence.
Boost your workflows in the leading TMS with DAT and Redwood Connect	See how KeHE transformed their logistics	Find out how you can easily reduce costs and plan more effectively	<u>Learn more about</u> <u>leveraging DAT data</u> <u>with Keelvar</u>

Ready to get started?

With DAT, you're not just adopting a tool — you're joining a connected ecosystem designed to empower your business. Plugging DAT's insights into your systems is simple.
