

# DAT Partner Ecosystem

## Smarter workflows with DAT's partner ecosystem

Inject DAT's industry-leading data directly into the tools you rely on every day. With pre-built, fully supported integrations, you get dependable market intelligence inside your TMS, planning, and orchestration platforms. No extra steps, no IT headaches – just smarter, faster decisions where your team already works.

## The value of integrated workflows

Faster adoption and stronger ROI with pre-built integrations

Greater flexibility through our expanding partner network

Smarter, faster decision-making right inside your systems

## Trusted partners, proven results

Integrating DAT's expanding network allows you to seamlessly incorporate dependable data into your current systems, including TMS platforms, planning tools, and personalized dashboards. Here are just a few of the partners we work with to provide market intelligence directly in shipper workflows:

### Oracle's TMS

Benchmark bids, improve award accuracy, and speed procurement.

[Boost your workflows in the leading TMS with DAT and Redwood Connect.](#)

### GoodShip's freight orchestration platform

Optimize carrier selection and boost on-time performance.

[See how KeHE transformed their logistics](#)

### Shipwell's TMS

Cut costs and improve routing compliance with integrated DAT rates.
