

The game has changed

Championships are won before the game even starts. See how analytics gives you the winning edge and a level playing field in transportation RFPs.

The OLD way

Time-consuming

Hours spent sifting through spreadsheets and outdated data.

Guesswork

Limited insights lead to overbidding or underbidding.

Lost in the crowd

Lack of confidence and competitiveness in the market.

Drained resources

Missed opportunities and manual tasks that bog teams down.

The NEW way

Instant insights

Advanced analytics provide actionable insights.

Confidence

Precision pricing backed by real-time data and forecasts from the industry's largest unbiased dataset.

Bid to impress

Competitive, accurate bids that stand out of the crowd.

Effortless efficiency

Streamlined processes save time and resources.

Bid to win with RFP tools from DAT iQ analytics

Get deep insights into truckload rates on every lane, from historical trends to game-changing forecasts.
