

Carrier Management Suite

Know who you're working with

It's all about trust, and the old ways of vetting just don't cut it. DAT One's Carrier Management Suite injects confidence into the heart of your network. Curate your network dynamically, and offer loads to targeted carriers that fit your criteria. Get all the facts you need in one place, with transparency you can trust.

Key features:

✓ **Carrier Company Profile and Insights**

Get instant access to critical details like authority information, insurance, crash and safety data, tracking insights via Trucker Tools, factoring confirmation, risk factors, compliance information and more, all within DAT One.

✓ **Qualification Settings**

Quickly find trusted and verified capacity that meet your company's specific criteria. Set your criteria to work with carriers that meet your requirements.

Key benefits:

✓ **Control and Customization**

Make sure every carrier is compliant, capable, and who you're looking for.

✓ **Efficiency**

Advanced filters and search parameters do the vetting for you. The carriers you find are curated to your needs, shedding up to 40% in call volume to filter through.

✓ **Integrated Trucker Tools Insights**

See ELD status, tracking performance, and on-time delivery rates - all in one place. Qualify carriers faster, source smarter.
