

# JOIN US IN GROWING GREENER

*with Compostable Eco+® Containers*

## Imagine a Plant-Powered Future

### IMAGINE IF...

ZERO petroleum was used and 100% of the package broke back down into inert plant material.

### IMAGINE IF...

Customers didn't have to choose because 100% of plant packaging was made from sustainable materials so there was ZERO WASTE.

### IMAGINE IF...

The green industry was truly GREEN and produced far less plastic waste.

FACT

**4 BILLION** pots for plants are sold annually. **1.6 BILLION** pounds of petroleum are used to manufacture plastic pots. **98%** end up in landfills.\*

\*Chappell & Know 2012

FACT

**95%** of consumers have or want access to purchase Eco+ Containers, but only **17%** say their IGC carries them.\*

\*Proven Winners consumer poll, July 2024

FACT

**84%** of Americans report being concerned over plastic and packaging waste.\*

\*Consumer Brands Assoc/Ipsos poll, Aug 2021

**ECO+ CONTAINERS ELIMINATED 1 MILLION POUNDS OF PLASTIC IN 2024**
