## GARDEN CENTERS VISITED

## DISTANCE TRAVELED

Most respondents are visiting garden centers within 25 miles of their home, but nearly 18% are willing to drive 25-50 miles to find a specific variety with 10% traveling over 50 miles.

## WHAT IS IMPORTANT TO A GARDENER WHEN THEY'RE SHOPPING

When asked to rank a list of considerations when plant shopping, consumers told us that plant health is top of mind and more important to them than cost.

## WHAT INSPIRES THEM

For respondents aged 25-44, friends' and neighbors' gardens were their top source of inspiration followed by content creators and social media. Those 45+ are more likely to rely on their own expertise and garden magazines.
