bring nature inside®

Nephrolepis, the sword fern, is native to humid, tropical, and subtropical regions, including Florida, the West Indies, Mexico, Central America, South America, Polynesia, Australia, Asia, and Africa. It thrives in swamps, forests, and as an epiphyte as a companion for support on a tree.

LIGHT

Low to medium indirect light

WATER

Moist, but free draining soil

FERTILIZER

Once per month at half strength when it is actively growing. Avoid direct contact of the fertilizer with the foliage.

GROWTH

Upright and low clumping
