

# New Plant Intros

2025-2026 SEASON

## ‘Violets are Blue’

*Delphinium* PPAF CPBRAf

Hybrid Bee Delphinium | Height: 30-36" | Width: 18-24" | Zones: 3-7

- Flowers are a blend of blue and purple with white bees
- Intermediate in height on sturdy stems
- From Tissue Culture for uniformity

## 'Hearts on Fire'

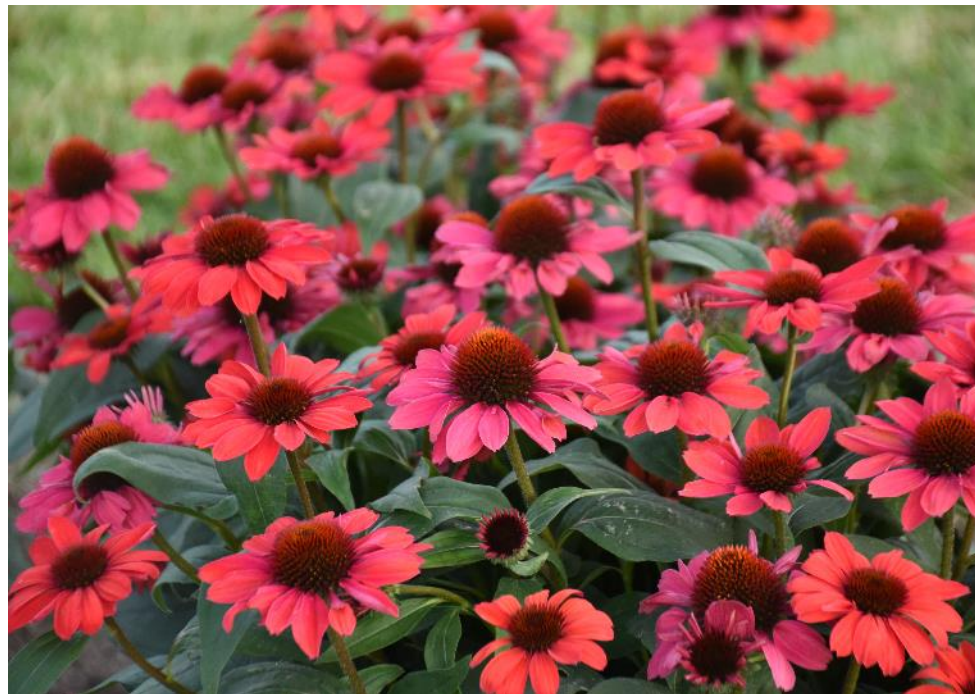

*Dicentra spectabilis* PPAF CPBRA F

Old Fashioned Bleeding Heart | Height: 18-24" | Width: 24-36" | Zones: 3-9

- Golden leaves with bronze highlights and dark stems create a vibrant contrast.
- True red flowers emerge in late spring
- Long scapes flower for an extended period, with flowers showing outside the foliage to maximize display

## COLOR CODED® 'Knock 'em Red'

*Echinacea* PPAF CPBRA F

Coneflower | Height: 20-24" | Width: 16-20" | Zones: 4-8

- 4" wide fluorescent red flowers open crimson and mature to mauve
- Excellent basal branching
- Dark green leaves

## DOUBLE CODED® 'Coral Cranberry'

*Echinacea* PPAF CPBRA F

Coneflower | Height: 18-20" | Width: 16-20" | Zones: 4-8

- Bright coral pink flowers with wide horizontal ray petals
- Excellent basal branching

## ‘Hugs and Kisses’

*Epimedium* PPAF CPBRAf

Barrenwort | Height: 8-12" | Width: 18-24" | Zones: 5-8

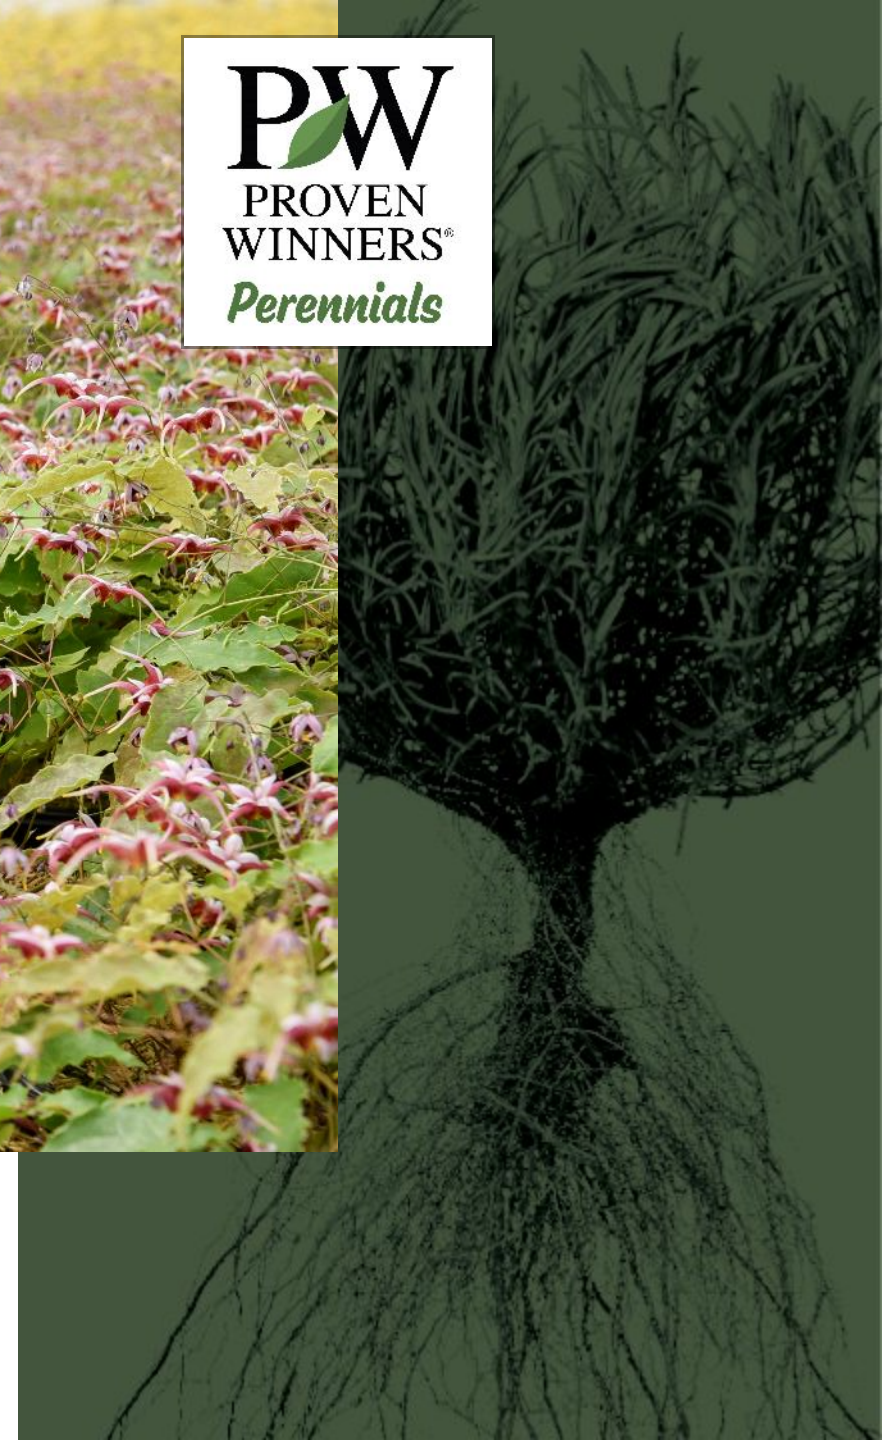

- Leaves are lightly mottled with burgundy red over its green leaf color base. Slight wavy leaf margins
- Bicolor flowers – backs of flowers are light pink with the centers a deep mauve
- Selections for Proven Winners have long inflorescences of large flowers, producing blooms for many weeks in spring.

# *Epimedium* 'Hugs and Kisses'

Greenhouse Stock Container Production

## ‘Woodland Elf’

*Epimedium* PPAF CPBRAf

Barrenwort | Height: 18" | Width: 18-24" | Zones: 5-8

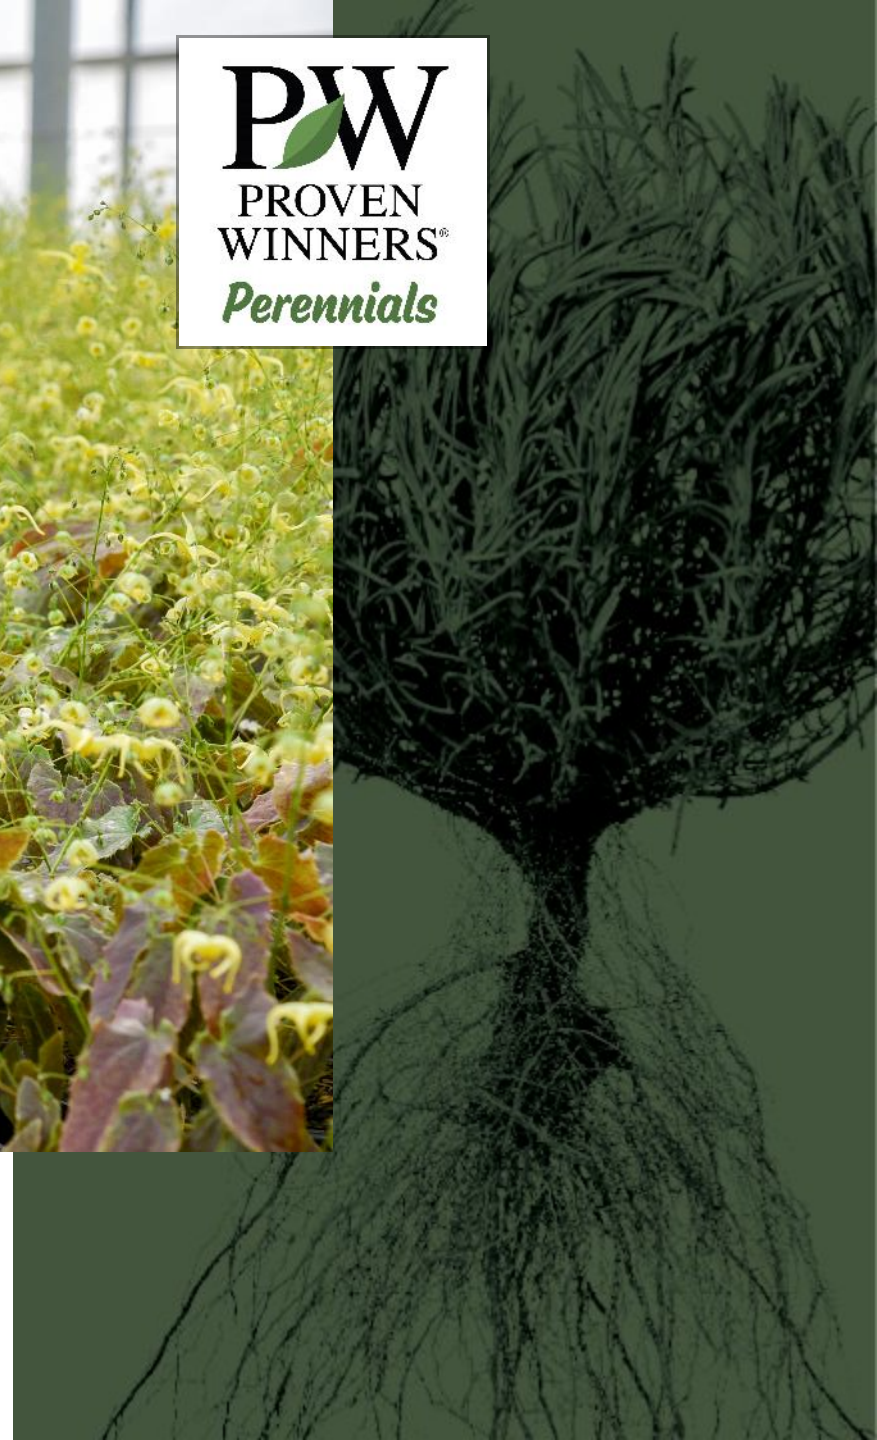

- Green, lance-shaped foliage with some burgundy bronze speckling. Especially notable on lower leaves
- Yellow flowers
- Selections for Proven Winners have long inflorescences of large flowers, producing blooms for many weeks in spring.

## *Epimedium* 'Woodland Elf'

Greenhouse Stock Container Production

## ‘Perfect Edging’

*Festuca arundinacea* PPAF CPBRA

Tall Fescue | Height: 14-18" | Scape Height: 30-34" | Width: 18-24" | Zones: 3-7

- Variegated foliage, with creamy white margins surrounding blue-green leaves.
- Variegation is most pronounced as the plant emerges in early spring, and will later match the lightly colored seedheads.
- Flowers appear in early summer, remaining upright through the end of the season

## Athena Gold™

*Heliopsis helianthoides*

False Sunflower | Height: 18-24" | Width: 16-20" | Zones: 3-9

- A very compact False Sunflower with sunny yellow flowers.
- Each flower is packed with petals, extending the life of individual blooms.
- An excellent choice to keep pollinators happy and add color to the middle or front of the border.

## ‘Rays for Days’

*Helianthus helianthoides* PPAF CPBRAf

False Sunflower | Height: 24-26" | Width: 18-20" | Zones: 3-9

- Fully double golden yellow flowers – our most floriferous selection to date!
- Upright, mounding habit has excellent mildew resistance
- Tall stems and a Zinnia-like appearance make them a perfect cut flower selection

## DOLCE® 'Glazed and Infused'

*Heuchera* PPAF CPBRAf

Coral Bells | Height: 8-10" | Scape: 22-24" | Width: 12-14" | Zones: 4-9

- Large silver leaves with charcoal-black veins and gentle ruffling form a dense, mounding habit
- Upright scapes of deep rose-pink flowers appear in early summer, blooming without vernalization
- Taller and more mounding than 'Silver Gumdrops'

## DOLCE® 'Sultry Night'

*Heuchera* PPAF CPBRAf

Coral Bells | Height: 8-10" | Width: 16-20" | Zones: 4-9

- Ruffled black leaves have purple overlay – purple highlights match the color of leaf undersides and stems
- Short petioles create a compact, dense habit

## SUMMERIFIC® 'Garnet Globes'

*Hibiscus* PPAF CPBRAf

Rose Mallow | Height: 36-42" | Width: 36" | Zones: 4-9

- Tons of buds, opening to 7" wide dark magenta red flowers
- Compact, upright habit, dark green foliage
- Compared with 'Valentine's Crush', 'Garnet Globes' is a deeper shade and about half the size.

## SHADOWLAND® 'Chance Encounter'

*Hosta* PP36151 CPBRAf

Hosta | Height: 13" | Scape: 16" | Width: 32-34" | Zones: 3-9

- Heart shaped powdery blue leaves with a jagged chartreuse margin. There is a watermark halo where the center and margin meet
- Clean gold margin, emerges apple green
- Heart shaped leaves, flat habit (wide)

## ‘Catwalk Queen’

*Nepeta* PPAF CPBRA F

Catmint | Height: 10-12" | Width: 18-20" | Zones: 3-8

- Compact, dense Nepeta
- Large flowers – twice the size of normal Catmint flowers – and very long panicles
- Very thick leaves

## ‘Lemon Purrfection’

*Nepeta* PPAF CPBRAf

Catmint | Height: 10-12" | Width: 16-18" | Zones: 3-8

- Very polished, compact horizontal habit of gold foliage with lavender blue flowers on reddish purple calyxes
- With increased shade cover the leaf color will be more chartreuse.
- Early to flower. This selection blooms continuously without being cut back.

## PRAIRIE WINDS® 'October Sky'

*Panicum virgatum* PPAF CPBRAf

Switch Grass | Height: 5' | Width: 2½' | Zones: 4-9

- Blue green foliage is covered with rosy purple seedheads in late summer.
- Compared with 'Apache Rose', 'October Sky' is taller, has darker colored seedheads

# *Primula vulgaris* BOUQUET PERFECT™ Series

Primrose | Height: 5-8" | Width: 10-12" | Zones: 4-8

- Large, clean flowers
- Sterile flowers result in plants that are particularly long blooming

**BOUQUET PERFECT™ ‘Spearmint’** *Primula vulgaris* (‘Kerbelmint’ PPAF)

Large white flowers have a mint-green hue

**BOUQUET PERFECT™ 'Violetta'** *Primula vulgaris* ('Kerbeletta' PPAF)

Exceptionally dark violet-blue flowers

**BOUQUET PERFECT™ 'Watercolour Blue' *Primula vulgaris*** ('Kerbelbluwat' PPAF)

Sky blue flowers are darkest at their centers

## 'Treasure Trove'

*Rudbeckia* PPAF CPBRAf

Black-Eyed Susan | Height: 32-36" | Width: 36-42" | Zones: 4-9

- Visibly clean foliage – no black spotting
- Full mounded habit with tall, substantial presence in the garden
- Large Rudbeckia flowers – golden yellow star-shaped with black eye

## ‘Orange Slices’

*Spigelia marilandica* PPAF CPBRAf

Spigelia | Height: 18" | Width: 16-18" | Zones: 5b-9

- Tall, orange-red flowers. Very floriferous, large flowers
- Flowers out of the foliage
- Eastern native wildflower, great for attracting hummingbirds

## ‘Cotton Ball’

*Thalictrum* PPAF CPBRAf

Meadow Rue | Height: 38-42" | Width: 18-24" | Zones: 5-8

- White flowering companion to ‘Cotton Candy’
- Sturdy, upright selection with flowers proportionate to the foliage
- Dark stems make the white flowers pop

## ‘Prairie Princess’

*Vernonia* PPAF CPBRA F

Ironweed | Height: 26-30" | Width: 30-36" | Zones: 4-9

- Compact, rounded habit – very dense compared with traditional varieties – of dark foliage and red stems. Good mildew resistance.
- Mauve buds open to rosy purple
- Native, late season pollinator perennial – especially butterflies

## ‘Dragon Slayer’

*Yucca* PPAF CPBRAf

Adam's Needle | Height: 24" | Scape: 48" | Width: 30-36" | Zones: 5-10

- Rigid lance shaped leaves are powdery blue; evergreen
- Interspecific variety with wide leaves
- Numerous creamy white flowers appear on proportionate scapes in early summer

## ART & SOL™ 'Aztec King'

*Mangave* PP32151

Mangave | Height: 20-24" | Width: 38-42" | Zones: 9-11

- One of the largest Mangave introductions
- Wide, broad silvery green leaves covered with burgundy flecks in full sun
- Arching, slightly scalloped leaves create an upright, majestic appearance

## ART & SOL™ 'Moonglow'

*Mangave* PP29195

Mangave | Height: 8-10" | Width: 16-20" | Zones: 8-10

- 1" wide, silvery blue-green leaves with contrasting dark purple spots
- Long, horizontal leaves held rigidly straight, forming a low, wide, and spiky habit
- Tiny spines line the margins and terminal spines are relatively soft to the touch, much less lethal than Agave varieties

## ART & SOL™ 'Purple People Eater'

*Mangave* PP29949

Mangave | Height: 12-16" | Width: 16-24" | Zones: 9-11

- Thick, sturdy blue-green leaves with reddish-purple spotting, appearing purple from a distance.
- Best coloration in full sun; less intense exposure results in greener leaves
- Margins fold upward to display yellow, orange, and cinnamon brown spines, with a cinnamon terminal spine at each leaf tip

## ART & SOL™ 'Silver Fox'

*Mangave* PP29642

Mangave | Height: 8-10" | Width: 16-18" | Zones: 9-11

- Appears silver at first glance, but is actually light green with a thick waxy coating
- Features thick, arching leaves with defined marginal teeth
