TOP  
PICK

## 'All the Buzz'

*Allium* PPAF CPBRAf

Ornamental Onion | Height: 14-18" | Width: 16-20" | Zones: 4-8

- Shorter, more compact plant than Allium 'Serendipity'; has glossy green foliage instead of glaucous blue
- Blooms around 2 weeks earlier than 'Serendipity' with a more rosy/pink hue of purple
- Floriferous, pollinator magnet

## PRAIRIE WINDS® 'Blue Steel'

*Andropogon* PPAF CPBRA

Big Bluestem | Height: 4½' | Width: 2½' | Zones: 3-9

- Really full, upright clump
- Blue foliage with purple highlights, lots of blue/purple in the flower
- Steel blue color vs other breeding work that concentrates on red foliage
- Native roots in North America

## FALL IN LOVE® 'Deeply'

*Anemone* PPAF CPBRA

Japanese Anemone | Height: 20-26" | Width: 24-30" | Zones: 4-8

- Similar bloom time and size as FALL IN LOVE® 'Sweetly' but with a darker pink color
- Spreads slowly through rhizomes; very restrained compared with other Japanese Anemone
- Thrives in light or filtered shade, good for tricky areas where light levels change through the growing season

## DECADENCE® DELUXE 'Lemon Smoothie'

*Baptisia* PPAF CPBRAFF

False Indigo | Height: 42-48" | Width: 42-48" | Zones: 4-9

- Blooms later than Lemon Meringue – a season extender
- Extremely long flower stems – 16-20" – longer than Lemon Meringue
- Classified as DECADENCE® DELUXE - about a foot taller than Lemon Meringue in flower (May/June)

## 'Noble Native'

*Carex laxiculmis* PPAF CPBRA F

Sedge | Height: 6-12" | Width: 6-12" | Zones: 5-9

- Native sedge with creamy white variegation
- Perfect for edging, low maintenance groundcover, or along the front of the shade garden border
- Rabbit and deer resistant

## 'Shade Fanfare'

*Carex plantaginea* PPAF CPBRAE

Plantain-leaved Sedge, Seersucker Sedge | Height: 8-12" | Width: 12-24" | Zones: 3-8

- Native sedge with wide green leaves and creamy-white margins
- Semi-evergreen foliage is slightly puckerd for additional texture
- Perfect for edging, low maintenance groundcover, or along the front of the shade garden border

TOP  
PICK

## 'Cloud Cover'

*Cerastium tomentosum* PPAF CPBRA

Snow in Summer | Height: 4-6" | Width: 26-32" | Zones: 3-7

- Silver groundcover early to emerge in spring
- Vegetatively produced for uniformity
- Compared with seed strains, 'Cloud Cover' has larger flowers, thicker leaves, and more intense silver color. As well as more uniformity in size and growth rate.

## FRUIT PUNCH® 'Whipped Cream'

*Dianthus* PPAF CPBRAf

Pinks | Height: 8-10" | Width: 12-14" | Zones: 4-9

- Double pure white
- Glaucous foliage
- Flowers are slightly larger than average at 1½" wide.
- Like the rest of the series, this variety shows excellent vigor, longevity in the landscape, and sporadic rebloom through summer for additional color.

## SUN JEWELS™ 'Rubies and Diamonds'

*Dicentra* PPAF CPBRAf

Fern-leaved Bleeding Heart | Height: 12-14" | Width: 16-18" | Zones: 3-9

- Red flowers on dark stems are exceptionally dark for Bleeding Hearts; the darkest color in the SUN JEWELS™ Series
- Finely-textured blue-green leaves
- Matches 'Pink Diamonds' and 'White Diamonds' for performance; best in full sun, well-drained soil

TOP  
PICK

## 'Forged in Fire'

*Heliopsis helianthoides* PPAF CPBRAE

False Sunflower | Height: 32-36" | Width: 32-36" | Zones: 3-9

- Golden yellow petals are almost completely covered by burnt orange eyes
- Flowers contain multiple layers of petals
- Compact selection with dark green foliage and dark burgundy stems
- Excellent mildew resistance

## SUMMERIFIC® 'Coconut Cream'

*Hibiscus* PPAF CPBRA F

Hardy Hibiscus | Height: 4-4½' | Width: 4' | Zones: 4-9

- Creamy-yellow flowers, arguably the darkest "yellow" to date
- Dark olive-green foliage
- Upright habit - more upright than 'French Vanilla', early to bloom

## SUMMERIFIC® 'Glitter Bomb'

*Hibiscus* PPAF CPBRAf

Hardy Hibiscus | Height: 4½-5' | Width: 5½-6' | Zones: 4-9

- 7" flowers have a peppermint pattern with a prominent red eye
- Color break

## SHADOWLAND® 'Affair to Remember'

*Hosta* PP35945 CPBRA

Hosta | Height: 28-30" | Scape: 27-33" | Width: 66-72" | Zones: 3-9

- Large heart-shaped leaves are pale greenish yellow with dark green margins and a medium green feather pattern where they overlap.
- Large white flowers rise just above the foliage in midsummer

## SHADOWLAND® GIANT 'Humungosaurus'

*Hosta* PPAF CPBRAE

Hosta | Height: 36-42" | Scape: 31-45" | Width: 72-84" | Zones: 3-9

- Giant yellow leafed Hosta
- Smooth, elongated heart-shaped leaves with deeply impressed veins
- Proportionate pale lavender flowers in early summer.

## 'Nectar Ninja'

*Hyssopus officinalis* PPAF CPBRA F

Hyssop | Height: 22-24" | Width: 34-38" | Zones: 4-9

- Incredible fragrance
- Lavender blue flowers on a nicely rounded habit
- Could be used in place of either Lavandula or Nepeta in the landscape, drought tolerant, full sun, average to poor soil
- More forgiving than Lavandula for harsh landscape conditions (especially in Northern winters)

## RISE & SHINE™ 'Citrus Sunrise'

*Kniphofia* PPAF CPBRAf

Red Hot Poker | Height: 32-36" | Width: 22-26" | Zones: 5b-9

- Golden yellow flowers
- Selected for their early flowering – about 2 or more weeks earlier. Slight rebloom for season extension.
- Also distinct for their wider leaves and intermediate size

## RISE & SHINE™ 'Mango Mimosa'

*Kniphofia* PPAF CPBRAf

Red Hot Poker | Height: 30-32" | Width: 20-24" | Zones: 5b-9

- Copper orange flowers, dark buds, extremely floriferous
- Selected for their early flowering – about 2 or more weeks earlier. Slight rebloom for season extension.
- Also distinct for their wider leaves and intermediate size

TOP  
PICK

## 'Summer Serenade'

*Lavandula angustifolia* PPAF CPBRAAF

Lavender | Height: 14-16" | Width: 14-16" | Zones: 5-9

- Tidy, modest-sized Lavender with true lavender flowers
- Early to bloom, among the first showing color, and exceptionally floriferous when in bloom
- Does not require vernalization to bloom

## PRAIRIE WINDS® 'Candy Floss'

*Muhlenbergia capillaris* PPAF CPBRAFF

Muhly Grass | Height: 36-42" | Width: 44-48" | Zones: 6-10

- Compared to the species (*M. capillaris*) – earlier to flower (mid September), dark colored form, improved cold hardiness
- Vegetative propagation for consistency
- Provides airy texture for landscapes

## PRAIRIE WINDS® 'Blue Spear'

*Panicum virgatum* PPAF CPBRAE

Switch Grass | Height: 48-52" | Width: 24-30" | Zones: 4-9

- Wide blue green leaves on a rigidly upright habit
- Fused seedheads appear like sorghum
- Offers multi-season appeal – can be left standing through winter for structure or cut for fall floral arrangements.

## BEJEWELED® 'Dark Amethyst'

*Penstemon barbatus* PPAF CPBRAE

Bearded Penstemon | Height: 18-22" | Width: 22-26" | Zones: 4-8

- Dark grape-purple flowers
- This midsize series was selected for dense habits and large flowers.
- Lance-shaped dark blue-green foliage looks good all season long – excellent mildew resistance
- Native to rocky hillsides in the southwestern United States

TOP  
PICK

## BEJEWELED® 'Lavender Sapphires'

*Penstemon barbatus* PPAF CPBRA

Bearded Penstemon | Height: 16-18" | Width: 20-24" | Zones: 4-8

- Individual flowers of 'Lavender Sapphires' have a rosy-purple base with lavender blue tips
- This midsize series was selected for dense habits and large flowers.
- Lance-shaped dark blue-green foliage looks good all season long – excellent mildew resistance
- Native to rocky hillsides in the southwestern United States

## 'Glowing Reviews'

*Persicaria (Bistorta) amplexicaulis* PPAF CPBRAE

Mountain Fleece | Height: 16-20" | Width: 28-32" | Zones: 4-7

- Vibrant cerise red flowers emerge from dark red buds
- Early blooming for Persicaria, more vigorous
- Golden chartreuse foliage has excellent sun tolerance

## BOUQUET PERFECT™ 'Rosalina'

*Primula vulgaris* ('Kerbelros' PPAF)

Primrose | Height: 5-8" | Width: 10-12" | Zones: 4-8

- Large, clean flowers
- Sterile flowers result in plants that are particularly long blooming
- Bright pink flowers

## BOUQUET PERFECT™ 'Scarletta'

*Primula vulgaris* ('Kerbelscar' PPAF)

Primrose | Height: 5-8" | Width: 10-12" | Zones: 4-8

- Large, clean flowers
- Sterile flowers result in plants that are particularly long blooming
- Scarlet red flowers

## LIVING LARGE® 'Dark Sky'

*Salvia* PPAF CPBRAE

Perennial Salvia | Height: 24-28" | Width: 28-32" | Zones: 3-8

- Very dark, indigo blue flowers are held on charcoal stems
- Similar size to 'Big Sky', but with much darker flowers
- Begins bloom as *Salvia pratensis* types hit their peak – excellent season extender for Perennial Salvia

## 'Web Designer'

*Tradescantia* PPAF CPBRAAF

Spiderwort | Height: 18-24" | Width: 18-24" | Zones: 3-9

- Companion to 'Webmaster'
- Selection from elevated ploidy work, large blue flowers (horticulture blue)
- Compact habit of thick, wide leaves
- Native to North America
