

EZ-Path® Series 44+ Retrofit Wall Plate

The EZ-Path® Series 44+ Retrofit Wall Plate is designed to facilitate EZ-Path® device installation around previously installed cables or in new cabling applications where a large opening or opposing offset openings have been created in either gypsum board or concrete walls. The assembled two-piece plates measure 7 in. x 7.5 in. (178 mm x 190.5 mm).

Features & Benefits

- Tested in Concrete Walls and Gypsum Walls
- Sized to address 7 in. x 7.5 in. (178 mm x 190.5 mm) openings
- Split design for new or existing penetrations
- Oversized to accommodate for misshapen openings
